Details

On December 19, 2012 SA Lerussi assisted in the investigation of an Officer Involved Shooting and Police Pursuit by review of surveillance video obtained from various locations and sources along the reported route the pursuit traveled. The assignment was to review the video files and to provide a summary of any activities observed relating to the pursuit or shooting

The video reviewed can be identified as item 22 from the BCI Cyber Crimes lab submission (Exhibit #62) and reports to be from a surveillance system located at Hanini Express Sunoco located at 12800 Euclid Avenue, East Cleveland, Ohio (216-231-6209.) The person who prepared the video files was Ali Hanini (DOB 4.22.89.) It can be noted that the system in use was identified as an EyeMax. Mr. Hanini exported the requested date range and identified camera to a USB Flash drive after being instructed by SA Lerussi to name the files as a reference to the location address. The USB drive furnished by SA Lerussi. The drive was then secured by SA Lerussi.

SA Lerussi later transferred the files to a CD/DVDR which was labeled item 22. Item 22 can best be described as a CD/DVDR containing 1 folder named "Video", two log text files and a program file. The text files contain documentation and hash values generated from the successful transfer of the files from the USB Drive. The folder contains two color video clips named "12800 euclid ave hanini" and "12800 euclid ave hanini2." The video is of good quality and the lighting is bright.
