

tration as a chauffeur provided for by Section 6302, General Code. All that the provisions of Section 7731-3, General Code, to the effect that a person in order to qualify for school bus driver need take but one physical examination amounts to, is that the facts developed by that examination shall be the basis for determining the physical fitness of the person for the position, and that he need not subject himself to another physical examination by an examining physician.

I am therefore of the opinion:

1. A person employed by a board of education to drive a motor vehicle for the transportation of school children to and from school must be duly registered as a chauffeur, in accordance with Section 6302, General Code.

2. Applicants for the position of driver of a motorized school conveyance for the transportation of public school children need take but one physical examination by an examining physician, as provided by Section 7731-3, General Code, for the determination of his physical fitness for the position.

Respectfully,

JOHN W. BRICKER,
