IT WAS TRAGIC! We watched the whole thing.... It happened right outside my office window. My car is still roped off because there is "evidence" 5 feet from my car. I have the entire shooting on video. Thank you Gahanna Police for keeping us safe.

ya'll... I can't un see what I just saw! The guy was walking around our parking lot, just WAVING A GUN AROUND... Gahanna Police was on it! He had a blank stare/look on his face. We were notified... "get away from window, theirs an active shooter"

Michelle Stewart Sounds like the perp was either on something or having a mental health crisis. He was shot? Did he shoot at anyone?
