On February 7, 2024, Ohio Bureau of Criminal Investigation (BCI) Crime Scene Technician (CST) Amy Gill and Special Agent (SA) Aja Chung, along with members of the BCI Special Investigations Unit (SIU), were assigned to assist the Columbus Police Department (CPD) with an officer involved critical incident. It was reported that earlier in the day, a blue Toyota Corolla had been stolen from the Fairfield Medical Center in Lancaster, Ohio. The vehicle was observed in the Columbus area and CPD officers made several failed attempts to stop it. Officers followed the vehicle into the Huntley Square parking lot, located at the corner of East Dublin Granville Road (SR 161) and Huntley Road, where stop sticks were deployed. CPD [REDACTED] [REDACTED] [REDACTED] gave commands for the driver, later identified as Holly Graham (Graham), to stop the vehicle, however, the vehicle swerved toward and struck him, which led to [REDACTED] landing on the hood of the vehicle. [REDACTED] reportedly fired multiple shots through the windshield of the vehicle, striking Graham several times. Graham continued driving through the parking lot, across a service road, through a grass ditch, and onto the westbound lane of SR 161. [REDACTED] was thrown from the hood of the vehicle, and Graham continued to drive eastbound in the westbound lane, where she eventually struck two SUV's head-on, just east of the I-71 overpass. Graham was taken into custody and transported to Riverside Methodist Hospital for treatment. [REDACTED] was transported to Grant Medical Center for treatment of his injuries. It was determined that the BCI Crime Scene Unit (CSU) would process the scene and the BCI SIU would lead the investigation.
