Initial Narrative By Ian Baker, 07/16/24 05:19

On 7/16/2024 Officers Thompson, Howell, and I responded to a welfare check at 5861 Ryan Rd. The welfare check was called in by Rachel Hall. Rachel is Victoria Carter's sister and wanted officers to check on her. Rachel claimed that Victoria was not taking her medications and has a history of [REDACTED]. Upon arrival we eventually made contact with Victoria. She was speaking quickly and carrying on about how God has been speaking to her and about additional spiritual things. We explained why we were there and she said that her family doesn't really talk to her and she rarely speaks with Rachel. She was cooperative with us and willing to speak, but did not want any treatment from the hospital or medics. Victoria told us that she was taking her medications as they were prescribed and did not feel the hospital would be beneficial. She said they just shoot her up with medications. For Victoria's normal state, this was not alarming to us and we did not have the need or obligation to force her to get medical help. We did encourage Victoria to seek treatment if needed or call Alternative Paths, whom would also be reaching out to her. 255.
