2026-1239
Officer Involved Critical Incident - 31000 Block U.S. Route
250, Uhrichsville, Ohio 44683, Harrison County

Investigative Activity: Review – OSHP CAD Report
Involves: Ohio State Highway Patrol (O)
Activity Date: 04/06/2026
Activity Location: BCI - Richfield
Authoring Agent: SA John P. Tingley #154

Narrative:

On April 6, 2026, Ohio Bureau of Criminal Investigation (BCI) Special Agent John Tingley (SA Tingley) reviewed the Ohio State Highway Patrol (OSHP) Computer Aided Dispatch (CAD) report related to the March 30, 2026, Officer Involved Critical Incidents (OICI) which occurred at multiple locations in Harrison County, Ohio.

The listed CAD entries do not include all the CAD entries documented in the CAD Report itself that covered the time before, during, and after the three different OICI incidents and the pursuit. Rather, the information listed documents those CAD entries that were deemed by the author to be the most relevant and useful in obtaining an understanding of the OSHP radio traffic related to the various OICI incidents, the vehicle pursuit, and the search for the suspect.

It should also be noted that the large breaks in the times of the documented CAD entries are during the time span when the search was occurring for the suspect on foot and with the OSHP Helicopter, the movements of the OSHP Tactical Team, and the setting up of the containment perimeter.

The OSHP event number is [REDACTED] and begins with the first entry at 11:38:10 AM. The incident type is listed as "SHOTS", and the CAD report consists of ninety-five (95) pages. The listed excerpts are taken directly from the CAD Report and are shown as a word for word copy of the entry and appear as they are documented in the OSHP CAD Report. All the entries occurred on March 30, 2026.
