

Ohio Attorney General's Office
Bureau of Criminal Investigation
Investigative Report

2023-1792
Officer Involved Critical Incident – I-70 at Mound Street,
Columbus, OH

Investigative Activity: Dash Camera Review
Involves: Officer [REDACTED] (S)
Date of Activity: 10/04/2023

Narrative:

On October 2, 2023, Ohio Bureau of Criminal Investigation (BCI) Special Agent Matt Collins (SA Collins) was asked by SA Jim Mulford to attempt to magnify an area of the dash camera video. The specific dash camera video was that of the City of Columbus Division of Police (CPD) cruiser [REDACTED]. SA Mulford had previously obtained a dash camera video which contained several minutes of video. SA Mulford, within evidence.com, created a clip of the original. The clip was condensed to only a few minutes, which specifically included the shooting incident involving officers from CPD.

On October 4, 2023, SA Collins completed the task. SA Collins utilized the Amped FIVE (Forensic Image and Video Enhancement) software. The software indicated the video was being played at thirty frames per second (30fps). SA Collins used the software to magnify specific areas where SA Collins believed attention was relevant. SA Collins also created a trimmed clip of SA Mulford's Trimmed clip. The "clipped video" sent by SA Mulford was trimmed by SA Collins beginning at 1:38.433 (F2953) into the recording and ended at 1:48.533 (F3256). The purpose for this was to isolate the beginning of the shooting incident. SA Collins did so by magnifying the area where the involved subject first appeared. SA Collins created the video so it was played at eight frames per second (8fps) or in slow motion.

A report was generated within Amped Five and will be attached to this investigative report.
