Witness Statement

January 17, 2024 I responded as 4174 to the area of 7702 Canton for an active shooter to assist with perimeter and scene safety. Once I arrived I went to the staging area and linked up with the 3rd District Vice Unit. We first went to the area of E 75 and Fullerton to receive a zone car. We then went to AB Hart School which was directly behind the active shooters location. We secured the streets that would allow people into the active shooter are. We also held back cover of the shooters location.

While securing the area the suspect opened a rear window and fired multiple shots into the direction of Officers who had cover behind zone cars at the intersection of E 75 and Canton. Within one minute of this another volle of shote rang out and from my vantage point I could see bullets bouncing off of the two swat vehicles.

I was not able to see from where I was any return fire, but did hear the the difference in the sound from the suspects firearm and swats do to the swat firearms silencers muffling the noise. When the Swat Officers fired it was just after they took direct fire from the suspect.
