Officer-Involved Critical Incident- 6042 Huntley Rd, Columbus

Investigative Activity: Interview with Witness
Involves: Lisa Graham
Activity Date: 3/7/2024
Activity Location: 1025 Sugar Grove Rd, Lancaster
Authoring Agent: SA Matt Collins, #151

Narrative:

On Thursday, March 07, 2024 at 1150 hours, Ohio Bureau of Criminal Investigation (BCI) Special Agent (SA) Matt Collins (SA Collins) spoke with and met Lisa Graham (Lisa), relative to the officer-involved shooting which took place on Wednesday, February 7, 2024. SA Collins first spoke with Lisa by phone before meeting her and Mike Craiglow at her address in Lancaster. The purpose of speaking with Lisa was because she had reached out to the Columbus Police Department and inquired about getting her daughter's (Holly Graham) necklace back.

SA Collins first spoke with Lisa on March 5th and let her know SA Collins had sent a request to the prosecutor on February 28th, asking for authorization to return Holly's personal effects (necklace and rings). At the time of the call, SA Collins had not yet received a response from the prosecutor. The authorization email was received on March 5th. SA Collins provided Lisa with information related to how the typical process works related to the investigation of this matter. Specifically, BCI's involvement and actions.

On March 6, 2024 around 1315 hours, SA Collins contacted Lisa by phone. During the call SA Collins and Lisa discussed the property to be returned. However, the phone reception or connection was not good, and the calls were disrupted. Also, Lisa had begun providing backstory information related to Holly's medical treatment which occurred during the same week as the shooting incident. Thus, SA Collins activated his recorder before calling back to obtain the information in Lisa's words.

Lisa stated Holly was at Lisa's house on Sunday (2/4/2024) and Lisa believed Holly was under the influence of some type of drug. Lisa described Holly as being "out of it." Lisa said she had experienced or witnessed Holly in a similar state on previous occasions. Lisa said Holly left Sunday. On Monday, February 5th, Lisa spoke with Holly on the phone and again, Lisa described Holly as "wiggins' out." Lisa believed Holly had called 911 on that Monday (2/5/2024) or called the jail about her warrant (drug paraphernalia; failure to appear). Lisa said she is not completely sure of whether it's true or not, but she believed Holly, "had a connection with the jail. Supposedly, they said she needed medical attention, which was probably mental, which I can say one hundred percent. She went to a Ohio Health facility.." Lisa said she was still awaiting those medical records, from

Holly's treatment on Monday night. Later Lisa stated she believed it was Grant Hospital, where Holly had received treatment on Monday night.

Lisa said she understood the hospital released Holly. Then on Tuesday morning (2/6/2024) around 0720 hours, Lisa received a call from Holly. Holly told her she was on her way to Lisa's house, via Uber. Lisa said she told Holly; she could not help Holly at that particular moment because Lisa was preparing to have surgery that day (Tuesday). Lisa said she did in fact have surgery and then later that night, around midnight (Wednesday morning), Holly and her boyfriend arrive and Lisa can hear them yelling and carrying on outside. Lisa said due to her surgery, she was not able to restrain anyone without hurting herself. Lisa said she spoke with Holly from the blink camera and told Holly she was going to have to call the police. Holly told her to call the police. Lisa then called Lancaster Police Department.

When the police arrived, they asked Lisa if Holly was always acting the way she was at that time. Lisa said she told them, "No, I said you know, she's on somethin' she hasn't (inaudible) a lot of stuff, you know. She out there. I can't do anything with her at this time. She needs to go to the hospital." Lisa said the police took her to Fairfield Medical Center. Lisa said the police, "did not feel comfortable letting her walk the streets. Or just not--, yeah. Because of her state of mind. So, they took her to FMC."

Lisa said Holly called her around 0220 hours on Wednesday morning and Lisa told her she could not help her because she was still recovering from surgery. Lisa said the next call she received was from Fairfield Medical Center police/security. They said Holly had just stolen a car.

Lisa said, from what she understood, Holly was seeking treatment related to withdraw symptoms.

The phone conversation concluded at approximately 1336 hours.

The recording is attached to this report. Please see the attachments for further details.

Officer-Involved Critical Incident- 6042 Huntley Rd, Columbus

On March 7, 2024, SA Collins retrieved Holly Graham's personal effects from the BCI London evidence room, via Greg Dunham. SA Collins photographed the items retrieved, which included: a silver necklace chain, 2 rings, a labradorite stone and a brown polished stone.

SA Collins then traveled to Lancaster and met with Lisa and her boyfriend Mike Craiglow at approximately 1150 hours. While speaking with Lisa and Craiglow, Lisa expressed her concern with the hospitals not keeping Holly and police action/s during the shooting incident. Lisa said she did not believe the officer needed to do what he did. She said something to the effect, "Holly did not have a weapon, other than the vehicle. The officer should not have gone across the parking lot and stood in front of the vehicle."

Craiglow advised SA Collins; the Lancaster police were at their house (SA Collins understood this to be Lisa's home) that week. Craiglow said Holly was hallucinating and something to the effect of Holly seeing or believing three people had come through their wall.
