

Ohio Attorney General's Office
Bureau of Criminal Investigation
Investigative Report

2022-1726
Officer Involved Critical Incident – 15266 Gilchrist Rd., Mt.
Vernon (L)

Investigative Activity: Records Received, Review of Records
Involves: DPD Ofc. ██████ (S)
Date of Activity: 10/04/2022
Author: SA John P. Tingley, #154

Narrative:

On Tuesday, October 4, 2022, Ohio Bureau of Criminal Investigation (BCI) Special Agent (SA) John Tingley (Tingley) reviewed the personnel, training and Ohio Peace Officer Training Academy (OPOTA) Polaris records for Dublin Police Department (DPD) Officer (Ofc.) ██████ (██████). SA Tingley reviewed the provided documentation and noted the following:

Personnel File

Ofc. ██████ was hired by the DPD as a full-time patrol officer on November 24, 2003.

Basic Training

Ofc. ██████ attended and successfully completed the Ohio Peace Officer Training Academy (OPOTA) Basic Training class BAS97-091 at Owens Community College. Ofc. ██████ also passed the OPOTA certification examination and was issued Peace Officer Certificate ██████ by the Ohio Peace Officer Training Commission (OPOTC).

Current Peace Officer Status

Based on the record received, it is noted that Ofc. ██████ was a duly certified and sworn Ohio Peace Officer at the time of the officer-involved critical incident.

Training File

Ofc. ██████ has completed a large number of advanced training classes from various sources. Some of these classes include:

- Human Trafficking
- Crisis Intervention
- De-Escalating Mental Health Crisis
- Crisis Conflict Management

- Use of Force, Liability and Standards
- Use of Deadly Force and Legal Guidelines
- Ethics and Professionalism
- Domestic Violence with Lethality Factors
- Critical Thinking in Use of Force Situations
- Missing Persons
- Communication Disability Law Training
- Hate Crimes
- Vicarious Trauma
- Community Diversity and Procedural Justice
- Basic SWAT

Firearms Qualification

On June 22, 2022, Ofc. [REDACTED] qualified with the Delaware Tactical Unit on the following weapons:

- Sig Sauer MCX rifle – .223 caliber – serial # [REDACTED] (this weapon was used in the officer-involved critical incident on August 20, 2022)
- Sig Sauer P320 pistol – 9 MM – serial # [REDACTED]

Disciplinary Records

Ofc. [REDACTED] does not have any discipline related to the use of force.

The OPOTC Polaris report, personnel file, training file and qualification records are attached to this report. Please refer to the attachments for further details.

Training Details:

Training Topic: Physical Fitness Test

Location: Delaware PD

Times: 0800 - 1200

Instructor(s): Ofc. Gavaghan

Summary: DTU members completed the annual physical fitness test. Strength and flexibility portions were completed at Delaware PD and the running stages were completed at the bike path near Selby Stadium. Attached is the results of the PT test. All but 2 members completed the PT Test and the ones who were not able to attend will take care of it upon their return.

DTU Training Narrative

Training Details:

Training Topic: High Threat CQB

Location: Vacant House (6201 Avery Rd. Dublin)

Times: 1200 - 1600

Instructor(s): Sgt. Shawn Combs

Summary:

1230-1300:

Flash drills reinforcing how to critically think about handling suspects and how they present (compliant, non-compliant, combative, or lethal). Also, arrest procedures inside the room versus outside the room. The verbiage of, "Police, do not move," was highlighted to do a visual frisk and determine compliance. This also buys time to make a good force decision if the suspect does start to move so that it is not initially perceived as compliance.

1300- 1530 hours:

This block of instruction was meant to pressure test our tactics using high threat cqb- angles of attack vs. angles of exposure. Two scenarios were ran: 1. A warrant service for Delaware Drug Task Force 2. A warrant service for a fugitive known to be inside. The teams were split up into two groups and each scenario was ran twice. They encountered various suspect situations (compliant, non-compliant, combative, or lethal). They were also presented with overwhelming fire from deep in the structure on the second scenario to test their exposure and to recognize a mission transition to barricade and peel-out.

Training Details:

Training Topic: Scenario Training with Crisis Negotiation Team

Location: 6201 Avery Road, Dublin

Times: 0800-1600

Instructor(s): Cpl. Jake Stoll, Sgt. Adam Willauer

Summary: DTU conducted joint scenario-based training with CNT. See below for the specific scenarios:

Scenario #1

Barricade with EDP

Overview:

Genoa Township PD received a call from the VA to check on the well-being of a patient who missed his doctor's appointment. Two patrol officers respond and take fire while approaching the house. Both officers are struck, one in the leg and the other in the shoulder. They moved

DTU Training Narrative

to cover applied a TQ to the leg injury and are applying direct pressure to the shoulder wound. They are pinned down behind cover and each time they try and move more shots are fired.

DTU/CNT respond to the scene.

Details:

While DTU works the downed officer rescue, CNT establishes contact with the resident via cell phone. They determine that his name is Jeff Fleming. Jeff is 81 years old and believes the Nazi's are attacking his barracks. He is armed with an M1 Carbine and a .45 pistol. He is convinced it is 1943 and he and his sergeant are the lone surviving members of his squad. He keeps talking to someone else inside but unknown if anyone else is actually there. He says he will shoot anyone he sees on his property.

Script:

CNT keeps trying to communicate with him but it's difficult with his mental status. He keeps yelling to get the tanks out of his driveway. Through intelligence gathering we find out that he has a daughter that lives local. She agrees to come to the CP and is willing to talk to him on the phone or record a message to him. Once the message/call goes through he is willing to come out. Jeff comes out the front door and starts to comply, but then gets scared and starts to go back inside. DTU takes action to prevent him from getting back inside.

At this point CNT jumps right into the next scenario while DTU practices different ways in keeping Jeff from getting back inside the house. (K9 w/ bite suit, Taser w/ suit and blue cartridges, 40mm, etc)

Scenario #2

Overview:

Mandy Neuman works at a machine shop as a receptionist. Her husband, Michael, believes she is sleeping with a co-worker. He shows up at the shop and shoots the co-worker in the head. Deputies surround the building and attempt to call out the occupants. Michael calls 911 and tells them to leave or he will start shooting more people. DTU/CNT are activated.

Details:

Michael is armed with a revolver and there are 5 hostages, including his wife. They have 3 children who are all at school today. He has been abusive with her in the past, has not had a

DTU Training Narrative

Job in 3 years, and smokes weed every day. He keeps saying he is going to leave with her and will shoot anyone who tries to stop him.

Script:

At this point DTU finishes up scenario #1, gets briefed, and sets up on the business. At some point the overhead door opens and 4 people come running out. Then Michael comes out with the gun to Mandy's head saying he will shoot her if they don't let him leave. DTU takes a shot as he moves with her towards a car and he goes down.

Scenario #3

Overview:

DTU is working a search warrant for DTF at a residence. There are 2 negotiators in the BearCat.

Details:

The search warrant is for the residence of Donny Vest and is for drug trafficking. He is known to carry a pistol on his person and has posted photos recently on social media of him holding an AK47.

Script:

As the door is breached, a suspect inside shoots at the entry team. They pull back to the safe area behind the BearCat. At this point DTU will run some reps on peeling back to the BearCat while CNT begins the negotiations. CNT makes contact with Donny who says he's afraid he's going to prison and might as well end it all now. Donny is smoking meth while talking to CNT and becoming more and more unstable. DTU jumps back into the scenario and the decision is made to deploy gas into the house. DTU simulates gas deployment. Several minutes later a single gunshot is heard and they lose contact with Donny. At this point CNT can move onto the next scenario. DTU deploys the robot into the house and locates him dead from a self-inflicted gunshot wound to the head. The rest of the house is cleared.

DTU Training Narrative

Scenario #4

Overview:

Steve Welch is being terminated from Dublin Building Systems. He is in a conference room with his supervisor and the HR Director. During the termination process Steve becomes irate and pulls out a gun. He barricades the door and sets the gun on the table. Another employee hears the commotion and calls 911. Patrol officers arrive, evacuate the building, and are negotiating with him through the barricaded door. DTU and CNT are activated. CNT arrives on scene and make contact with Steve via cell phone.

Details:

Steve has been employed with the company for 17 years and has recently been suspected of stealing from the business to support his heroin habit. He feels that the company has treated him unfairly because of his physical disability (deformed arm). He is demanding an apology from the president of the company for the mistreatment, then he says he will let everyone go. Once DTU jumps into the scenario, they will clear the building up to the conference room. Once there, Steve's cell phone dies and we have to work CNT up to the conference room to communicate with him through the door. CNT is able to negotiate him out of the room and he surrenders.

Training Details:

Training Topic: Firearms Training

Location: Delaware PD Range

Times: 0800 – 1200 & 1200 – 1600

Instructor(s): Ofc. [REDACTED]

Summary: The team was split into two groups for the day due to an anticipated mission on Thursday, June 17th. The operators that were assigned the mission went to JVS North to rehearse the mission tactics. The other half of the team went to the range to train. Ofc. [REDACTED] began firearms training with Rifle Qualifications shot from the non-dominant side. Once that was complete, he ran everyone through the following drills:

Multiple Targets – Shoot/Don't Shoot Targets

- 2-3 hostages 1 threat
- Operators will move from left to right taking shot when they have a lane
- Head shots will come in to play first then body shots
- Operators will then move from right to left using left-handed shooting

DTU Training Narrative

Barricade work rifle / pistol

- 3 DTU Operators
- Set up 1 door way
- 2-3 hostage targets 1 threat target
- Left to right 45 90 45 shooting hostage target
- Switch targets up go back through right to left
- Then work single operator, snap to 90, make entry, and shoot hostage takers while navigating through the hostage targets

Transition drills

- Start with rifle, 1 round in the mag, 1 round in chamber
- Fire until click then fire 2 pistol
- Repeat

Pool Ball Target

- Utilizing a paper target with billiard balls, shoot the balls in numeric order
- Run it as a relay race, with half the operators on one half of the range and the rest on the other.
- First team to have a hit on each of the balls wins.

4 steel targets 4 barricades

- Start with one operator kneeling behind each barricade
- Each operator must deliver 2 hits right side 2 hits over, and 2 hits left side
- Then move to next barricade.
- If an operator catches up to another operator, he taps then on shoulder then they are out.
- Keep moving until last man standing.

DTU Training Narrative

Training Details:

Training Topic: Vehicle Interdictions

Location: Delaware JVS North (vacant)

Times: 0800 – 1200 & 1200 – 1600

Instructor(s): Sgt. Diaz

Summary: DTU members worked on vehicle interdiction and high risk stops in preparation on conducting Mission DTU-21-008. For High Risk Traffic Stops, two marked vehicles were used and activated their overhead lights to initiate the stop. Once the vehicle stopped the second vehicle would pull past the initiating vehicles driver side leaving enough room to move personnel through the gap between the vehicles. All occupants would then move to the right rear bumper of the vehicles to use the entire length of the vehicle as cover. Team members from unit 1 would cover passenger side of target vehicle and team members of unit 2 would cover driver side of target vehicle.

Upon completion of the high risk stop, we then worked on pinning a moving vehicle. This required that the team members utilize 3 unmarked vehicles and would position themselves around in front of and behind the target vehicle. The lead unmarked vehicle (Unit #1) would then advise the two trail vehicles that he was preparing to stop the vehicle and in doing so would initiate the pin. Unit 1 would apply the brakes and cause the target vehicle to slow/stop in traffic while Unit #2 would make contact with the target vehicle from behind. Unit #1 would

DTU Training Narrative

reverse, also making contact with the target vehicle and continue to apply pressure to prevent losing bumper to bumper contact with the target vehicle. Unit #3 would then swoop in and make contact with the driver door of target vehicle preventing the subject from exiting the vehicle. Commands would be then given for the suspect to safely exit the vehicle and be taken into custody.

Training Details:

Training Topic: Medical Training

Location: DCSO South Sub

Times: 0800 - 1200

Instructor(s): Dan Jividen

Summary: Half of the team conducted a mission on Westerville, while the other half completed medical training. The medical training consisted of the following:

- equipment was collected to evaluate medical items.
- newer team members were give medical equipment that was needed.
- information given to purchase items as needed
- medical kits restocked that were missing such as chest seals or bandages to control bleeding.
- reviewed signs and symptoms of shock from blood loss for law enforcement environments.
- reviewed proper storage of a tourniquet

DTU Training Narrative

- reviewed proper application of a tourniquet
- reviewed basic anatomy of critical injury locations
- reviewed anatomy of direct pressure locations
- reviewed hands on demonstration and practice of direct pressure locations
- reviewed basic airway positioning and chest seals.
- discussed what to do when a tourniquet cannot be placed and best techniques to control blood loss.

Training Details:

Training Topic: High Threat Hostage Rescue

Location: JVS North (vacant)

Times: 1200 - 1600

Instructor(s): Sgt. Ramon Diaz

Summary: DTU members worked on Hostage Rescue techniques which caused them to respond to stimulus and snap directly to the 90-degree position on opposing sides of the door which allow them maximum coverage into the target room. If the hostage taker was not visible from the 90 degree, the two-person team would then bound and snap into the room.

If the hostage taker was found to be using a hostage to shield himself from the hostage rescue team, the team members would vector on the hostage taker which would cause him to move away from one team member while exposing himself to the other team member. Upon doing so the team member with the best angle would deliver a central nervous system shot which would prevent the hostage taker from harming the hostage.

Initial scenarios were run utilizing paper targets and Simmunition/UTM ammunition, along with live hostages in protective gear. This caused the team members to process the information and properly threat identify before taking any action against the paper targets.

DTU Training Narrative

We then set up a scenario with live hostage taker armed with a blank UTM weapon using a live hostage role player. Upon breaching the door, the hostage taker would fire the blank weapon at the team members causing them to enter the room and vector on the hostage taker.

This scenario was repeated with the hostage/hostage taker being placed in the center of the room, then the hard corner of the room, then again in the center of the room with the room completely dark.

All shots were on the hostage taker and zero accidental impacts on the hostage.

This training was conducted without injury.

Training Topic: DCLEE Demo

Location: Delaware State Park

Times: 0800 - 1200

Instructor(s): DTU

Summary: We conducted a demo for members of the DCLEE, highlighting a variety of our capabilities. We showed our capabilities in explosive breaching by utilizing a firehose charge, a strip charge, and a door port charge. We demonstrated breaching with a ram, H-tool, and showed "break & rake" techniques with an H-tool on windows. The ram extension was attached to the BearCat and it was utilized to breach the front door of the house. A flash-bang was rigged to the ram and detonated once the door was breached. We also used the BearCat ram to create a hole in the side of the house, which could be used as a port into the room.

DTU also demonstrated the use of the Bang Pole and how it is much more effective than just a flash-bang grenade. DCLEE was also shown team movement using High Threat CQB tactics on a building clearance. Members were placed inside the house so they could see team

DTU Training Narrative

movements from that perspective. The command bus was on scene and members were given a tour, highlighting recent upgrades. DCSO and DPD drone teams were there as well, recording video of the demos and showing their capabilities.

Training Details:

Training Topic: High Threat CQB

Location: 35 North Liberty St., Powell

Times: 1200 - 1600

Instructor(s): Sgt. Shawn Combs, Ofc. Matt Cook

Summary: The team was split into two groups for the day in order to work stations of slow search speed and hostage rescue high threat tactics. Emphasis was put on deliberate movements with officer safety at the forefront for the slow deliberate speed working aggressive angles of attack throughout the structure. For hostage rescue speed, emphasis was put on hostage/ civilian safety and working through the structure at a much faster rate, snapping straight to a 90° on angles and bounding/ snapping into the room to interdict the hostage taker.

- Dry Fire Drills
 - Marksmanship is paramount during hostage rescue operations, so the afternoon was started with dry fire practice.
 - Safety checks were performed on all personnel entering the building and no live ammunition was permitted inside other than the safety officer (Sgt. Stoll).
- Grip and accuracy
 - Operators were instructed on getting into a stable and controlled stance, relaxing their shoulders, bending their elbows, bringing the sights to their eyes, and using a crush grip on their support hand to have a fast and accurate platform.
 - From finger index, they were given a threat command and were to engage the target (post it note) in front of them, checking their front sight movement for accuracy. This was repeated fifteen times.
- Multiple target- Threat identification and visual training

DTU Training Narrative

- Operators were given three post it notes on different levels in front of them numbered 1, 2, 3.
- On threat, they engaged the 1 target, moved their eyes to the 2 target before moving their gun and then manipulating the trigger, and doing this again on the 3 target. This was repeated fifteen times
- Draw
 - Operators were instructed to drive their gun into the holster to defeat all retentions, bring the gun up to meet it with the support hand (building a good grip), bringing the gun up to their vision, relaxing the shoulders, and engaging target 1.
 - This was done under time starting slowly taking four seconds and working down to one second.
 - This was done in full body armor to get acclimated to gear.
- Reload
 - Operators were instructed to engage target 1, bring the gun in closer to their body, drop the magazine, reload another magazine, and re-engage target 1.
 - This was done under time starting slowly taking four seconds and working down to two seconds.
 - This was done in full body armor to get acclimated to gear.
- Hostage Rescue High Threat CQB
 - Operators were given a large floor with multiple rooms and hallways. They were partnered into groups of three. One operator observed the two others as they worked the techniques and then they rotated.
 - Operators were told to work swiftly moving to doorways/ openings and to drive straight to a 90° on the door jamb/ corner.
 - If no threat was observed at the 90°, they were instructed to bound and snap the room.
 - If no threat was still observed, they either exited the room to find the next room in the hall or collapsed down to the next area in the room that needed searched working the same technique.
- Slow Deliberate Search High Threat CQB
 - Operators were given a residential house and cleared the structure utilizing aggressive angles of attacks and checking their exposures.
 - As they approached a danger area, they would work from the next available piece of cover and check the 45°, 90°, 45° with an exposure check in between each. This was facilitated with a cover and support officer.

Training Topic: Scenario training with Delaware County CNT

Location: 35 N. Liberty Street, Powell

Delaware State Park

Times: 0800 - 1600

Instructor(s): Ofc. Brian Gavaghan, Ofc. Emily Breece

Summary: We conducted scenario based training with the crisis negotiators. The first half of the day was at the vacant carry-out on Liberty Rd in Powell. While doing the training, the team was activated and responded to the requested location in Delaware. We were cancelled enroute, but due to the timing, we took a lunch break and headed up to the vacant house at Delaware State Park for additional scenarios.

DTU and Negotiators took part in a joint training exercise utilizing scenarios. The purpose of the training was to provide a realistic training opportunity for both groups to work together and gain a better understanding of the role, responsibilities and capabilities of each.

DTU Training Narrative

Scenario 1: Robbery Gone Bad / Hostage

Patrol was dispatched to a robbery alarm at 35 N. liberty St (carryout). Upon arrival, patrol units set up a perimeter and monitored from outside while dispatch attempted a call back. Dispatch did not receive an answer and moments later, received a 911 call from an employee hiding inside. The employee stated the business had been robbed and that the robber was still inside. He stated as the robber was getting ready to leave he saw a cruiser pull into the area and ran back inside. He stated there were at least two other people inside besides him and the robber. (caller provides a description of the robber to dispatch).

Patrol has set up containment on the building. They have been able to speak with the subject via phone. He has refused to release employees still held inside and stopped communicating with patrol. DTU and CNT were requested.

Training Points:

DTU and CNT arrived and took over the scene. DTU was responsible for the tactical response and CNT was responsible for negotiations. Each unit worked their areas of responsibility in conjunction with one another to reach a successful outcome.

Scenario 2: Robbery suspect stole a police cruiser / accomplice fled the scene and barricaded in a nearby residence.

Patrol responded to an armed robbery. While units chased subjects on foot they doubled back and gained access to an unattended police cruiser. The subjects fled the scene in the cruiser and crash after a short pursuit. One subject remains barricaded in the vehicle. The second subject fled from the scene and barricaded in a nearby residence.

DTU Training Narrative

Training Points:

DTU and CNT arrived and took over the scene. They were required to work together to manage and contain two scenes simultaneously. Elements worked in conjunction with one another to reach a successful outcome to a complex situation.

Scenario 3: Barricaded Homicide Suspect(s)

Patrol responded to a report of shots fired in the parking lot of Freddy's Big Lot (3040 US Hwy23 N, Delaware Ohio 43015). Upon arrival, the first unit aired that a (vehicle description and registration) was observed leaving the lot northbound on 23 at a high rate of speed. A responding unit traveling south on 23 spotted the vehicle, flipped and followed it into Delaware State Park (residence). The officer observed two male subjects exit the vehicle and run into the residence. The vehicle remained parked out front.

It was confirmed that a shooting occurred and the victim was deceased. A witness stated the victim was shot by two male subjects (description). Witness advised the subjects left in a (vehicle description and registration) confirming patrol had located the correct vehicle at Delaware State Park. The subjects observed running into the residence match the description provided by the witness.

Training Points:

DTU, CNT and Drone Team responded and took over the scene. DTU was responsible for the tactical response and CNT was responsible for negotiations. All elements worked in conjunction with one another to reach a successful outcome.

Training Details:

Training Topic: Vehicle Assaults – Semi Trucks

Location: OCLC (6600 Kilgour Place, Dublin, OH)

Times: 0800 - 1600

Instructor(s): OSP SRT

Summary:

Sgt. Stoll tasked Ofc. Parsons to research and develop a training plan for how we would handle a call involving a semi truck. Specifically, how to immobilize one, approach it, gain entry, and clear it. Ofc. Parsons reached out to OSP SRT for information on training they had conducted in the past. They were kind enough to bring a semi with a trailer to us and conduct the training for us. Below is a copy of their lesson plan.

Pre-Training Plan/Concept

Introduction and talk with the group about any recent encounters they have had with semi-trailers. What is their current plan when dealing with semi's?

DTU Training Narrative

****Safety Inspection****

Lt. Lezotte will go over the semi-truck and important information dealing with the semi.

Dry runs. Practice making approaches to the semi-trailer to effect an arrest.

Break for quick lunch and to allow for training group to get set up.

Scenario based training

- I. A suspect wanted for human trafficking is suspected to be inside a semi-truck at a truck stop. As officers approach the semi-truck, the suspect presents a firearm forcing the arrest team to go into barricade procedures. As the scenario plays out the suspect will have a hostage in the trailer with him.
 - a. Allow for the scenario to unfold to include use of negotiators.
 - b. Eventually to move along the scenario, negotiations will go badly and the need for a hostage rescue plan will need to be implemented.
- II. Discussion Points:
 - a. Breachers – What do you need to know to be successful in getting a positive breach?
 - b. Snipers – Have you shot through vehicle glass? Do you use a glass penetrating round? What will your round do after going through glass and do you have data on it?
 - c. Command:
 - i. In a hostage situation, what is the SOP for a sniper initiated approach? Are the snipers confident in taking the shot without approval from command and what is the course of action after a shot goes out?
 - ii. What is the go to hell team equipped with and are they in close enough proximity to be successful?

Equipment Needed:

- Pistol simunition guns

DTU Training Narrative

- Yellow safety vests
- Semi-truck/trailer from Lt. Lezotte
- Shotgun blank rounds
- 2 role players

Training Details:

Training Topic: Clearing a “cubicle farm”

Location: OCLC (6600 Kilgour Place, Dublin, OH)

Times: 0800 - 1600

Instructor(s): Sgt. Diaz, Sgt. Combs

Summary:

We were also granted access to the building on the property where we were doing the training with semi trucks. Inside the building is a very large “cubicle farm” which is vacant, but the cubicles are still in place. This gave us a unique opportunity to train on how to clear such a large area. After some discussion, we developed a couple of plans and then tried them out to see what worked best.

Training Topic: Obstacle Course

Location: DCSO Outdoor Range

Times: 0800 - 1600

Instructor(s): Sgt. Keller, Dep. Kern

Summary:

DTU members completed the obstacle course at the DCSO outdoor range. The course consisted of the following:

1. Put on a weighted vest to simulate being in full kit.
2. Carry a ram 50 feet, up a set of stairs, to the breacher training door, and successfully breach the door.
3. Run up the hill to the driveway, then down the hill into the woods.
4. Climb over a 6 foot wall.
5. Step thru a series of tires.
6. Climb thru a simulated window.
7. Crawl thru a tunnel.

DTU Training Narrative

8. Run up the hill, grab two full ammo cans, carry the cans 50 feet.
9. Run to the top of the tower, load your rifle, fire 3 rounds into the steel silhouette target (approx. 100 yds)
10. Make rifle safe, run down the tower, down the driveway to the wood platform, and fire 3 rounds into the small steel target (approx. 50 yds)
11. Run to the barrel, don your gas mask, draw your pistol and fire 3 rounds into the center mass of an OPOTA target.
12. Run up to the wall and fire 3 rounds into the head of the OPOTA target with strong hand only.

Here is a list of the participants and their times. An X indicates they did not achieve a 100% on the shooting portions.

Training Topic: Team Building / Physical Fitness Exercise

Location: Glacier Ridge Metro Park (Dublin)

Times: 0800 - 1000

Instructor(s): Sgt. Stoll

Summary:

DTU members participated in team building exercises at the Glacier Ridge Metro Park Obstacle Course. The course consists of 12 obstacles over 3 acres and is surrounded by a half-mile running path. Members were divided into 2 teams and competed in relay-style competitions. Members were encouraged to work together as a team using problem solving strategies.

DTU Training Narrative

Training Details:

Training Topic: Pistol Training

Location: Dublin PD Indoor Range

Times: 1000-1300 & 1300-1600

Instructor(s): Sgt. Stoll , Ofc. Woodard

Summary:

DTU members participated in live-fire pistol training. The training consisted of the following drills:

1. We warmed up with some "dot" drills.
2. Shot 8" circle paper plates for speed from the holster.
3. Set up the "Diamond Drill" which consisted of the following:
 - a. 9 IPSC targets, each with a number drawn on the head.
 - b. The targets are spaced on 5 lines, in a diamond formation. There is 1 target in front, 2 behind it, 3 behind then, then 2 and 1.
 - c. From behind a barricade placed 20 feet away, the instructor will call out the order, either 1-9 or 9-1, and the side that the shooter must move to first.
 - d. Hits must be in the "A Box" and not hit a different target in front of or behind the intended target.
 - e. A head shot is only permitted on target #1 and the farthest outside targets, 4 and 6, must be shot from the opposite side of the barricade.
 - f. The drill is timed on a pact timer.
 - g. This was conducted several times as individuals, then in pairs utilizing "body-blocking" techniques.
4. The final drill consisted of shooting a close target quickly and having to slow down to shoot far away targets.
 - a. When the target faces, draw and fire 2 rounds into the close target (20 ft)
 - b. Then transition to the far away targets (75 ft)
 - c. The far targets are all numbered. The shooter would then shoot whatever the command was, ie SSN, Phone Number, etc.
 - d. This drill was repeated several times.

DTU Training Narrative

Training Details:

Training Topic: VirTra Simulator Training

Location: DCSO South Sub

Times: 1000-1300 & 1300-1600

Instructor(s): Dep. Kern, Dep. Pate

Summary:

Team members completed several scenarios and training exercises on the VirTra Simulator. These included firearms training, use of force decision making, and less-lethal weapons.

Pistol Diagnostics

8 - Hours

The OTOA is delighted to announce an exclusive training course for police professionals, military and armed security officers interested in improving handgun skills.

This exclusive offering to OTOA members will provide all the basics needed to recognize and self-diagnose issues encountered with the handgun and how to fix those deficiencies through a better understanding of the fundamentals of marksmanship.

This firearms course will break down each of the fundamentals in terms that make sense to shooters of all levels of experience and expertise with the practical applications through live-fire exercises.

This course is conducted by credentialed and experienced OTOA trainers. All OTOA training staff are tenured police professionals with specific expertise in mentoring and coaching shooters of all levels of experience with firearms.

Intended audience

- Those interested in improvement and confidence with the pistol
 - Those interested in mastering the basics of firearms
 - Ideal for current firearms instructors
 - Ideal for requalification officers (REQ)
 - Ideal for agencies interested in improving individual officer knowledge and skillset
-

Required Equipment – **Student Supplied:**

- 500 rounds of factory 9mm pistol ammunition – NO RELOADS - NO STEEL CORE
 - Duty or Individual owned pistol with a minimum of 3 magazines
 - Duty belt with holster or a concealed holster
(SORRY - No Serpa, shoulder/ ankle holsters)
 - Range appropriate attire
 - Wrap around Eye Protection
 - Ear protection (electronic preferred)
 - Baseball style hat / billed cap
 - Food / Water - No meals provided
 - Seasonal weather gear/rain gear - dress for the weather
 - Note-taking material
-

COST: \$175

Training Times - 0800-1700 each day

Course limited to - 24 students.

Delaware Tactical Unit Training Summary

Sgt. Ramon Diaz DPD #13

Nov. 17, 2021

On 17Nov2021 DTU team members met at the YMCA located at 1121 S. Houk Rd. to conduct our extended training day. The following topics were covered during this extended training day:

Map reading (See attached power point)

Military Grid Reference System (MGRS)

Latitude /Longitude (Lat/Lon)

Dismounted Patrolling (Conducted at Blues Creek Park)

Ofc. Robin Valentine lead the dismounted patrolling portion of the training and covered the following topics:

Formations: The file and the wedge were described and demonstrated. The team members worked in small groups to move from one to the other. Then the Scroll to the Road and Fire Team Blast were explained and demonstrated as solutions to crossing danger areas. Scroll to the road requires security elements to set up on the near side of the road and team members to move across the road one at a time. The Fireteam Blast requires near side security to be set up and then the rest of the team to move to the edge of the road, shoulder to shoulder and on command, move across the road as a single element. This would make it difficult for anyone seeing the element to estimate the size of the element moving across the road.

Hand and arm signals were demonstrated and included the following: Wedge, File, Security, Map Check, Pace Count, Danger Area, Scroll to the Road, Fireteam Blast and Head Count.

Day Time Land Navigation (Blues Creek Park)

Team members were broken up into smaller elements and given the latitude and longitude for eight numbered points in the park. They were then given the order in which they were to follow moving point to point. Each team member had to input the correct latitude and longitude to successfully arrive at the correct numbered point.

Low Light Shooting/No Light Shooting Utilizing Night Vision Goggles (NVGs) Delaware City Range

This portion of the training day began with familiarization with the Night Vision Goggles which most team members are assigned. NVGs were mounted onto each team members helmets and properly aligned to maximize the effectiveness of the device. We then moved to the firing line (30') and became

comfortable finding our sights. Once everyone was comfortable locating the target and their reticle with their NVGs, the targets were engaged with multiple rounds. Each target was assessed and then engaged again from 30'. Once everyone was in the preferred area of target, we moved to 50' and then to 75', scoring each round for accuracy and making the appropriate equipment adjustments. Team members who do not have Night Vision Goggles, shot the same course of fire using white light and moving from the 30' line to the 50' line and ending at the 75' line. This exercise was used to build confidence in engaging targets while conducting No Light/Low Light operations.

Nighttime Land Navigation (Blue Creek Park)

Team members were broken up into smaller elements and given the latitude and longitude for six numbered points in the park. They were then given the order in which they were to follow moving point to point. Each team member had to input the correct latitude and longitude to successfully arrive at the correct numbered point. Team members could use night vision goggles to move from point to point

Hostage Rescue Scenarios (Blues Creek Park)

Two hostage rescue scenarios were conducted utilizing Simmunition and UTM rounds. The first scenario started off with a hostage taker (passenger seat) holding a weapon to the hostage (driver seat). Once the team leaders were given the scenario and had to plan for the recovery of the hostage. The hostage taker was advised to flee from the vehicle as one element of the team approached and then try to place himself between the different elements and potentially cause a crossfire situation. Once the hostage taker fled the vehicle and raised his weapon towards the team, he was successfully engaged by team members wearing night vision goggles. The team leaders did a good job of deconflicting fires to prevent any friendly fire incidents.

The second scenario started with the hostage and hostage taker standing outside the restrooms at Blues Creek Park. Once the team began to approach, the hostage taker took off running but then stopped to shoot back at the hostage. The hostage taker then continued to run and was engaged by a blocking element who were able to contain him and engage him with training rounds, ending the hostage situation.

There were no reported injuries during the training event and all equipment was accounted for.

Sgt. Ramon Diaz DPD #13

Training Details:

Training Topic: Firearms Training

Location: Delaware PD Range

Times: 0800 - 1200

Instructor(s): Sgt. Stoll

Summary:

DTU members completed the qualification course of fire utilizing 50% OPOTA targets. This was done with the pistol course as well as the rifle course. The targets were not officially scored in order to save time, but it gave team members the opportunity to self-evaluate their shooting abilities while shooting a reduced size target. The goal of the exercise was to throttle their shooting speed in order to maintain an acceptable level of accuracy.

DTU Training Narrative

50% OPOTA Target

Full-Size OPOTA Target

Team members then competed in relay race style competition. The team was divided up into four teams. Each team staged behind their respective cone at the 75 foot line. On the command of "Go", the first member from each team ran down to a barrel, 20 feet in front of their target. On the barrel was a stack of playing cards. The shooter had to flip over three playing cards, find the corresponding cards on the target, and hit each card with one round. Once completed, they holstered their pistol, ran back to their team, and tagged the next team member. This was repeated until everyone on the team had completed the course of fire. The race was completed several times.

The goal of the exercise is to create physical stress by running up to the barrel, physiological stress by forcing members to perform in front of their peers, identify the correct target, and

make a series of relatively challenging shots. By being on teams, it also creates a sense of teamwork and competition.

DTU Training Narrative

Training Details:

Training Topic: Administrative Duties

Location: Various

Times: 1200 - 1600

Instructor(s): Various

Summary:

The remainder of the training day was spent with the team completing a variety of administrative tasks. The team leadership had a meeting as to the direction of the team in 2022. The remainder of team members completed an inventory of equipment and munitions, performed cleaning and maintenance of equipment and workspace, and a variety of other miscellaneous tasks.

Scenario 1 (516 SR 257, Ostrander)

While attempting to serve civil papers, the process server hears 4 gunshots and believes the resident is firing at him. The driveway is approximately 100 ft long and the process server runs back to his vehicle parked at the end of the driveway. He is afraid to drive away, hides behind the car, and calls 911. He was not struck, but there are two bullet holes in his car. Patrol responds, parks down the road, and attempts contact to the residence by phone. The resident advises that he does not recognize the sheriff's office as a legal form of government and he will shoot anyone who trespasses onto his property. Incident command is established and DTU is activated.

Where should the command post be located?

Where should DTU staging area be?

What vehicles will you need?

How many people will you need?

Make the initial assignments.

Where will DTU members be placed?

Where will vehicles be placed?

Drivers? Medics? CNT?

DTU has arrived on scene and CNT has located some intel on the residents. There are 6 people that live in the house. Jerimiah Waugh, his wife Felicia, and their three adult sons, Thomas, Richard, and Harold. Social media accounts reveal strong sovereign citizen sentiment and possible ties to militia groups. Calls to Jerimiah's cell phone go straight to voicemail. Jerimiah has a warrant for kidnapping out of Oregon with a nationwide pick-up.

What do we do with the process server still at the the end of the driveway?

Any additional personnel or equipment requests?

Reposition any people or vehicles?

Jerimiah calls 911 and says he will shoot at the police if they do not get away from his property. He claims to have several high power rifles and enough ammo to finish the job. He hangs up the phone. CNT calls the number back and the wife answers. She is willing to come out and try to work this out in person with the police.

Change any tactics or plans based on the new info?

How do you handle the wife?

Felicia walks down to the command post and tells CNT that it is only her husband in the house and he has a single AK47 with one full magazine. She says she does not believe that he will go without a fight and she wants no part of his drama. At this point, the garage opens and there is a Ford F250 in the garage.

What is your plan for the following resolutions?

Continued barricade:

Surrender:

Comes outside armed with the AK47. Has it at his side vs pointing it at officers:

Begins shooting at officers from inside the house:

Any other contingencies we need to consider?

Jerimiah exits the house wearing a plate carrier, Kevlar helmet, and the rifle in his hand. He screams at the officers and begins firing in their direction. They return fire and he is struck at least once and goes down in the front yard.

How do you handle him if he appears to be dead?

How do you handle him if he is obviously alive?

Complies with orders?

Refuses to comply?

Either way, he is secured in custody.

What do you do next?

Who needs to be contacted for the OIS?

What needs to be secured as evidence / crime scene?

Training Details:

Training Topic: Tabletop Scenarios

Location: Dublin PD Training Classrooms

Times: 0800 - 1400

Instructor(s): Sgt. Diaz, Ofc. Ryan, Sgt. Stoll

Summary:

DTU members were broken up into three teams and each was presented with a tabletop style scenario. A script, maps, and access to the internet was provided to the team and an update was given every 10-15 minutes. Ultimately, each group completed all three of the scenarios. Once all were done, each team debriefed one of the scenarios and discussed differences in how the scenarios were resolved.

(See attached scenarios)

DTU Training Narrative

Training Details:

Training Topic: Incident Debrief

Location: Dublin PD Training Classroom

Times: 1400 - 1600

Instructor(s): Sgt. Stoll

Summary:

DTU members sat through a webinar presentation from the NTOA about an active shooter situation that occurred in Bryan, Texas. The presentation is part of the NTOA's TacTalk training series.

Webinar: (2021) Critical Incident Active Shooter Debrief (Bryan, TX)

Course # 20213910

This webinar will debrief lessons learned managing a critical incident involving an active shooter on April 8th, 2021. The debrief will discuss the incident, the response, and lessons learned from the response. From this webinar, you will understand some of the management complexities of this incident, such as self-initiated deployment from outside jurisdictions, indiscriminate parking issues, and communication problems that occurred. This debrief will discuss the multi-jurisdictional response, mass casualty care response, and command post operations. In addition, post-operational problems that are not usually considered in training and preparations will be evaluated. The debrief will be provided by the Incident Commander and first supervisor on the scene.

Scenario 2 (278 Bluegrass Way, Ostrander)

Children's Services was conducting an unannounced home visit at the Wyler residence as part of an on-going investigation into possible child pornography. An adult sibling, Mark, is suspected of sending photos of his 8 yr old sister to a friend of his. As the investigator is knocking on the door, Mark opens it, punches the investigator several times in the face, and flees back into the residence. The investigator calls DCSO and deputies respond. When the first deputy arrives on scene, Mark comes out the front door with a shotgun, chambers a round, and fires the gun into the air. DCSO sets up containment and activates DTU.

Where should the command post be located?

Where should DTU staging area be?

What vehicles will you need?

How many people will you need?

Make the initial assignments.

Where will DTU members be placed?

Where will vehicles be placed?

Drivers? Medics? CNT?

CNT is able to gather intel on Mark. He has been in and out of juvenile detention as a kid, with several charges of arson and cruelty to animals. They obtained a cell number for him through children's services and called him. He appears to have a fixation with fire and believes that God is telling him to send his family to heaven. He tells negotiators that he is home with his 8yr old sister and 12yr old brother. DTU arrives on scene and relieves patrol units.

What additional considerations do we need to be concerned with?

Any additional resources needed?

Negotiations continue to deteriorate. There are no direct threats to harm the siblings, but there are obvious mental health issues. All 3 people can be seen in the house through the windows. There are two gas cans on the kitchen counter. Mom and dad learn about the incident and try to get home. They are directed to the negotiators. CNT obtains a recorded message from the mother pleading for Mark to let his brother and sister leave and surrender.

How can we get the message to Mark?

Do we have a hostage situation?

Do we have an immediate action plan in place yet? If so, what is it? How does the potential fire situation play into it?

The front door opens quickly and the 12 yr old and 8 yr old come running out. Mark is initially chasing after them, but quickly returns inside the house. A short time later, heavy smoke begins to flow out of the front door and flames can be seen inside.

What do you do with the kids?

What do you do with Mark when he begins to exit then returns inside?

How do we handle the house fire?

Scenario 3

Two Marion County deputies are transporting three prisoners from their jail to Orient. While on US 23 near Hills-Miller Rd in Delaware County, the driver suffers a stroke and crashes the transport vehicle, which rolls over several times. The second deputy is injured and incapacitated. One of the prisoners is alive, but injured and trapped. The other two were able to escape and disarmed both deputies of their service weapons before fleeing. Witnesses observe two men in prison jumpsuits running S/W behind the McDonalds. OSP is handling the vehicle situation and DCSO dispatches units to the area and activates DTU.

Where should the command post be located?

Where should DTU staging area be?

What vehicles will you need?

How many people will you need?

Make the initial assignments.

Where will DTU members be placed?

Where will vehicles be placed?

Drivers? Medics? CNT?

In the meantime, you receive information on the two prisoners. Jason South has been convicted of murder and was sentenced to life in prison. Rex VanHorn has been sentenced to ten years in prison for Agg Robbery. A deputy on the perimeter observes the two suspects run across Oakhurst Drive and gives chase. He sees them go into the Delaware Grace Church and goes in after them. One of the suspects fires at the deputy, striking him in the leg. He makes his way to cover behind a brick pillar near the entrance. He self-applied a TQ and is stable. There are several cars in the lot, but it does not appear that very many people are in the building.

Where do you reposition your resources?

Any additional resources needed?

Would the downed officer's condition factor into your decisions? Stable? Critical? Dead?

Jason South picks up a phone in the church and calls 911. He tells the dispatcher that he has a room full of hostages and if the police try to come inside, he will start shooting them. CNT is in contact with him now and he says he does not want to hurt anyone, but neither of them are going back to prison. CNT is able to gain access to the church's security camera system and have verified that they are in the day care room located on the S/W corner of the building. There is one adult hostage and sixteen, preschool age children. There appears to be nobody else in the building. In the day care room, there is one exterior door that leads to the parking area to the south. All of the blinds are closed and nobody can see in from the outside.

Any changes to placement of resources?

Any additional resources needed?

Negotiations continue for an hour and Jason is demanding access to a car so they can drive away and nobody else has to get hurt. An officer on the perimeter notices that the lights on a minivan in the lot were flashing and the horn honked, as if someone was using the key fob. The van is parked on the south side parking area. On camera, the two suspects are seen putting kids on their shoulders and escorting 4 of them and the teacher under a large blanket, all hunched over. The blanket covered group of people come out and start walking toward the minivan.

Do we let this go mobile?

What do we do if we allow them all to leave?

What can we do to prevent that?

Do we try to take a shot?

Any other ideas on how to resolve this?

Training Details:

Training Topic: Technology Training

Location: Delaware JVS North (vacant)

Times: 0800-1200

Instructor(s): Sgt. Keller, Lt. Jividen

Summary:

The team was divided in half and worked on Technology Equipment and Building Searches. The technology training consisted of the storage, set up, and use of both robots, pole cam, and bounce imaging camera. Dublin PD's Drone Team was also in attendance and worked with team members on the use of a drone for tactical operations. Team members practiced operating the ICOR Robot through an obstacle course and up and down stairs.

DTU Training Narrative

Training Details:

Training Topic: Building Searches / Warrant Execution

Location: Delaware JVS North Fire Training Area (vacant)

Times: 0800-1200

Instructor(s): Sgt. Flynn

Summary:

The team was divided in half and worked on Technology Equipment and Building Searches. The Building Searches training consisted of several warrant execution scenarios in the trailers at the fire training area. Team members worked on building search tactics, locating subjects hiding inside, and arrest procedures. The Dublin PD Drone Team also assisted in this and demonstrated what capabilities a drone has for warrant service missions.

*** The training day was cut short due to a warrant service mission in Delaware for DTF.

Training Details:

Training Topic: Armored Vehicle Operations

Location: Delaware JVS North (vacant)

Times: 0800-1200

Instructor(s): Sgt. Dan Yarnell

Summary:

Members met at JVS north to complete training on the operation of the BearCat and MaxxPro. Sgt. Yarnell covered storage, function and operation of each vehicle. Additional topics included the set up and use of the ram on the BearCat, vehicle recovery techniques, and safety considerations. Team members that have had minimal experience operating the armored vehicles were given the opportunity to drive them around the parking lot and out on the surrounding roadways.

Members were broken up into teams for the training so they could work on breakout team training when their team was not doing the driving training.

DTU Training Narrative

Training Details:

Training Topic: Range Training / Use of Force Simulator

Location: Dublin PD Indoor Range

Westerville PD Indoor Range

DCSO South Sub – VirTra Simulator

Times: 1200 - 1600

Instructor(s): Sgt. Keller – WPD Range

Dep. Siegel – DCSO Simulator

Cpl. Stoll – Dublin PD Range

Summary:

Due to safety concerns caused by the inclement weather, it was decided to not shoot on Delaware PD outdoor range. Rather, the team was split into 3 groups in order to properly maintain social distancing guidelines. Team members that went to Dublin and Westerville conducted live fire training with pistols and rifles. Team members that went to DCSO South Sub participated in virtual training scenarios and weapons handling drills on the newly acquired VirTra Simulator.

Handgun Qualification

Stage 1

Title: Long Range - Barricade
Target: OH-OPOTA
Grading: Level 2
Rounds : 6
Distance: 70 Feet
Time: 30 Seconds
Light: Normal
Carry: Ready
Stance: Standing

Shooter starts with the handgun loaded. On command, stand and fire 6 rounds into the target from the weapon side of the barricade. Reload and re-holster.

Stage 2

Title: Long Range
Target: OH-OPOTA
Grading: Level 2
Rounds: 12
Distance: 60 Feet
Time: 60 Seconds
Light: Normal
Carry: Ready
Stance: Kneeling, Prone

Shooter starts with the handgun loaded. On command, kneel and fire 6 rounds into the target, reload, prone and fire 6 rounds into the target. Reload, and re-holster.

Stage 3

Title: Long Range
Target: OH-OPOTA
Grading: Level 2
Rounds: 6
Distance: 50 Feet
Time: 10 Seconds
Light: Normal
Carry: Ready
Stance: Standing

Shooter starts with the handgun loaded. On command, fire 2 rounds into the target. Repeat for a total of 6 rounds.

Stage 4

Title: Multiple Targets (3)
Target: OH-OPOTA
Grading: Level 2
Rounds: 6
Distance: 40 Feet
Time: 10 Seconds
Light: Normal
Carry: Ready
Stance: Standing

Times: 1300-1600

Instructor(s): Cpl. Jake Stoll, Sgt. Jason Flynn

Summary: Team members worked on loading into the BearCat in reverse order and then exiting the vehicle. As the team exited, only the breaching element moved up to the simulated door, while the remainder of the team stayed back and provided cover from behind armor. We then simulated that the team was taking fire from suspects inside the structure. They practiced systematically peeling back to the BearCat for cover. This was done with empty guns for several repetitions and eventually done "live fire" where targets were engaged through the simulated doorway.

Delaware Tactical Unit

Delaware City Delaware County Dublin Genoa Township Powell Westerville

Handgun Qualification

Distance: 15 Feet
Time: 2 Seconds
Light: Normal
Carry: Ready
Stance: Standing

Shooter starts with the handgun loaded. On command, fire 1 round in the head of the target. Repeat for a total of 6 rounds. Reload, and re-holster.

Stage 9

Title: Weapon Hand
Target: OH-OPOTA
Grading: Level 2
Rounds: 6
Distance: 10 Feet
Time: 3 seconds
Light: Normal
Carry: Ready
Stance: Standing

Shooter starts with the handgun loaded. On command, fire 2 rounds into the target. Repeat for a total of 6 rounds. Reload, and re-holster.

Stage 10

Title: Support Hand
Target: OH-OPOTA
Grading: Level 2
Rounds: 6
Distance: 10 Feet
Time: 4 Seconds
Light: Normal
Carry: Ready
Stance: Standing

Shooter starts with the handgun loaded. On command, fire 2 rounds into the target. Repeat for a total of 6 rounds. Reload, and re-holster.

Total rounds: 66
Passing score: 59 = 90%

Delaware Tactical Unit

Delaware City

Delaware County

Dublin

Genoa Township

Powell

Westerville

Semi-Automatic Rifle Qualification

Stage 1

Title: Snap Shooting
Target: OH-OPOTA
Grading: Level 2
Rounds: 12
Distance: 20 Feet
Time: 2 Seconds
Light: Normal
Carry: Ready
Stance: Standing, Kneeling, or Prone

Shooter starts with the rifle loaded. On command, fire 2 rounds. Return to the start-ready position. Repeat procedure.

Stage 2

Title: Transition
Target: OH-OPOTA
Grading: Level 2
Rounds: 15
Distance: 20 Feet
Time: 15 Seconds
Light: Normal
Carry: Ready
Stance: Standing

Shooter starts with the rifle and handgun loaded. On command, fire 2 rounds into the center mass of the target and 1 round into the head. Place the rifle safety on, transition to the handgun, and fire 2 rounds. Return to the start-ready position. Repeat procedure.

Stage 3

Title: Gas Mask
Target: OH-OPOTA
Grading: Level 2
Rounds: 12
Distance: 25 Feet
Time: 5 Seconds
Light: Normal
Carry: Ready
Stance: Standing

Shooter starts with the rifle loaded. On command, fire 2 rounds into the center mass of the target and 1 round into the head. Return to the start-ready position. Repeat procedure.

Stage 4

Title: Multiple Targets (3)
Target: OH-OPOTA
Grading: Level 2
Rounds: 12
Distance: 30 Feet
Time: 8 Seconds
Light: Normal
Carry: Ready
Stance: Standing, Kneeling, or Prone

Shooter starts with the rifle loaded. On command, engage the 3 targets with 4 rounds each.

Stage 5

Title: Protective Cover, Multiple Targets (4)
Target: OH-OPOTA
Grading: Level 2
Rounds: 12
Distance: 30 Feet
Time: 20 Seconds
Light: Normal
Carry: Ready
Stance: Standing Outside, Kneeling Inside

Shooter starts with the rifle loaded. On command, engage the 2 targets from the weapon hand side of the barricade with 3 rounds on the outermost target standing and then the inner most target kneeling. Move to the support hand side of the barricade and repeat the above procedure.

Stage 6

Title: Medium Range
Target: OH-OPOTA
Grading: Level 2
Rounds: 12
Distance: 75 Feet
Time: 12 Seconds
Light: Normal
Carry: Ready
Stance: Standing, Kneeling, or Prone

Shooter starts with the rifle loaded. On command, fire 12 rounds into the target.

Stage 7

Title: Long Range
Target: OH-OPOTA
Grading: Level 2
Rounds: 12
Distance: 150 Feet
Time: 15 Seconds
Light: Normal
Carry: Ready
Stance: Standing, Kneeling, or Prone

Shooter starts with the rifle loaded. On command, fire 12 rounds into the target.

Total rounds: 87
Passing score: 79 = 90%

<input type="checkbox"/>		<input type="checkbox"/>	

DTU split into two groups for the day, with Green Team doing Arrest Tactics and Black Team doing Firearms Training in the morning and Black. The teams switched for the afternoon.

Training Details:

Training Topic: Arrest Tactics

Location: Dublin PD

Times: 0800 - 1200 & 1200 – 1600

Instructor(s): Sgt. Flynn, Ofc. [REDACTED]

Summary:

Arresting with Flex Cuffs

A. Cuffing a compliant person vs. non-compliant person

B. 1 officer on 1 subject

-Can be difficult to maintain control

-Gloves can slow down the process

-Leave a long enough tab to pull, or gripping will be harder.

C. 2 officers on 1 subject

DTU Training Narrative

- Easier to apply handcuffs with some help/control of at least one arm.
 - Not always feasible due to number of available operators and number of suspects.
- D. 3 officers on 1 subject
- Easiest to apply handcuffs with help and control of both suspect's arms.
 - Not always feasible due to number of available operators and number of suspects.
- E. Conducted multiple repetitions of putting flex cuffs on in all scenarios above.
- F. When adjusting the cuffs always put the subject in a controlled and/or unbalanced position and have at least one other operator present.
- When subjects complain about the handcuffs/flex cuffs, we are obligated to check them for proper fit and adjust as necessary.
 - Utilize tactical medics to do a secondary check on them.
 - Note any adjustments made in your narrative reports.
- G. Discussion for using multiple flex cuffs for bigger subjects/ subjects with tight shoulders.
- Prep single strand flex cuffs to attach two sets of flex cuffs.
 - Use a standard set of handcuffs to attach two sets of flex cuffs.

Takedowns/Wrist locks

- A. Gooseneck (pain compliance technique)
- B. Gooseneck transition to handcuffing position

- 1 officer on 1 subject
- 2 officers on 1 subject
- 3 officers on 1 subject

- C. Front armbar takedown

- 1 officer on 1 subject
- 2 officers on 1 subject

Key factor is to communicate. When one officer/operator calls for a takedown that officer should generally apply the takedown technique. The other officer releases from arm control and slides down the subject grabbing a hold of both legs and wrapping them up and squeezing the person's knees together. This will assist with the takedown and will help gain quicker control of the downed subject.

- D. Reverse takedown

- Control an arm on escort technique
- Block subject's backswing elbow strike
- Cup the shoulder and pull backward with the flow of subject's momentum.
- Leg sweep subject's leg closest to operator.

These steps were put together to make one quick responsive movement/takedown.

Ground Control on Combative Subject

- A. 1 officer on 1 subject
- B. 2 officers on 1 subject

Key is to control the hips first. Operator must sit on the back legs of the subject just beneath the buttocks. The operator turns his feet (shoelaces out) into the inner legs of the subject near their calves. This operator applies downward and outward pressure making it difficult for the subject to bring his legs together

DTU Training Narrative

or to raise his/her hips off the ground. When that subject tries to raise up using their arms, the operator grabs both planted arms and pulls them in toward the subject's hips. This will keep the subject's chest against the ground. The second officer (if present) will control the subject's head by putting the head (face down) between the thighs of the operator. The operator will also put downward pressure on the back of the head. This technique keeps the subject from raising or turning his head, but still allows the subject to communicate and breathe.

Vehicle Extraction Techniques

A. Arm bar

- Cut seatbelt if needed
- Using the B Pillar as a base for the arm bar
- Use standard arm bar technique

B. Leg bar

- Cut seatbelt if needed
- Using the B Pillar as a base for the leg bar

C. Head control

- Cut seatbelt if needed
- Grab the subject's head and secure it tight to the operator's body
- Operator turns hips outward while holding the head securely. This follows the concept of "where the head goes, the body must follow."

Takeaways:

1. Most subjects who are combative or even semi-resistant will be difficult to place flex cuffs on. Operators should begin to carry at least one standard set of handcuffs on their kit to make for quicker handcuffing of these types of individuals. Be sure to carry a handcuff key.
2. Have options readily available for placing two sets of flex cuffs on larger subjects. Operators should begin to carry at least one single unfastened flex cuff that can be used as a connector between two sets. Standard handcuffs can help here too.
3. When feasible, have one or two controllers help the operator who is applying handcuffs. More control equals safer application.

Training Details:

Training Topic: Firearms Training

Location: Delaware PD Range

Times: 0800 – 1200 & 1200 – 1600

Instructor(s): Ofc. Parsons

DTU Training Narrative

Summary:

Range training focused on fundamentals of shooting. Proper grip, trigger control, sight alignment, stance, and breathing were key to shoot the courses of fire and targets with accuracy and speed.

Each group shot the same course of fire which included the consistency target, single bullseye target, eye exam target, 5X5 target, and Battle Ship target. Several targets were used multiple times and timed using the PAC timer.

The temperature was extremely cold on the range and officers were given extended breaks to warm themselves up. The cold temperatures gave the shooters time utilizing winter gloves while shooting the fundamental targets.

Training Details:

Training Topic: Team Expectations and Policy Review

Location: YMCA Delaware

Times: 0800 - 1200

Instructor(s): Sgt. Diaz

Summary: DTU conducted the annual policy review. This included the DTU Operating Manual. Sgt. Diaz also clearly outlined his expectations as Team Commander.

DTU Training Narrative

Training Details:

Training Topic: Medical Training

Location: YMCA Delaware

Times: 1200 - 1600

Instructor(s): Jividen, Ward, Wise

Summary:

DTU members updated medical information sheets. Reviewed several videos of medical interventions related to police officer daily duties that have taken place across the country. Videos were selected to discuss policy and decision making. Other videos were chosen to discuss techniques and how they could be changed for improvement if encountered.

Discussion was brought up on what to do with wounds that affect the chest cavity. Several minutes were spent discussing that the chest cavity is a hollow cavity and wound packing isn't as beneficial as placing a chest seal over the wound. If bleeding needs controlled, control the bleeding first then place a chest seal.

DTU members were broken up into three groups and rotated through three breakout sessions for review.

Station 1 - DTU members reviewed proper direct pressure techniques that could be used when a tourniquet cannot be applied. Ultrasound machine used to show the effectiveness of these pressure points and how much pressure is needed to occlude the artery.

Station 2 - DTU members reviewed tourniquet application and how to properly apply the tourniquet when exposed to stressful situations.

Station 3 - DTU members reviewed proper wound packing skills on a slab of meat. Holes were drilled in the meat to simulate realistic application of gauze into the wound if it is needed to be performed on live tissue.

Training Details:

Training Topic: Water Survival Familiarization

Location: Westerville Jaycee Community Pool

Times: 0800 - 1200

Instructor(s): Sgt. [REDACTED], Det. Sean Franks

Summary:

Familiarization

- Officers were exposed to swimming in uniform. The class was split into smaller groups, with each group assigned to a different lane. Officers swam laps in their uniforms. With each repetition, officers utilized a different swimming stroke. Once competency was demonstrated, officers started adding their duty belts and soft armor and performed additional laps.
- The purpose of this exercise was to introduce the officers to the challenges and limited mobility presented by being in the water while in uniform, duty belts and armor.

DTU Training Narrative

Treading

- Discussed the different water treading techniques.
- Officers demonstrated competency in treading water while in uniform.
- Discussed the importance of staying calm, limiting movement to conserve energy, reducing heat loss, etc.
- Officers participated in a timed water treading challenge. The majority of the class demonstrated the ability to tread water for more than 20 minutes.

Shedding Uniform & Gear

- Discussed/demonstrated how to remove gear and clothing while treading in the water
- All officers performed this exercise.
- The purpose of this exercise was to simulate a scenario in which the officer would be in the water for an extended period of time before additional help would arrive. If presented with this situation, officers should remove heavy gear and clothing to make themselves lighter so they may conserve energy and increase endurance, thus increasing survivability.

Falls & Disengagement Techniques

- Discussed/demonstrated falling techniques to best prevent injury. If an occasion were to occur where the officer falls in the water, the officer should tuck their ear into their shoulder or cover their ear with their hand to prevent an ear drum rupture. They should fall so that the side of their torso contacts the water first and not their head or ear.
- Discussed scenarios when being knocked or taken into water by a suspect
 - Demonstrated techniques to protect their weapon and give the officer the advantage once hitting the water. Officers should try to fall with their gun side away from the subject. They should bring their knee to their chest for protection and to create space as soon as they hit the water. Hands should be up in a protective posture. Tuck ear into shoulder to prevent ear drum rupture.

DTU Training Narrative

- If taken into the water by a suspect, while falling, the officer should attempt to position themselves so the suspect enters the water first and on the bottom. This gives the officer the advantage once in the water.
- Once the officer and suspect have entered the water, the officer should make every attempt to disengage and create space. The officer should kick off the suspect to create space. If in a non-pool environment, the officer should create space by swimming underwater, utilizing the water for concealment.
- Upon resurfacing, the officer should present their handgun and be prepared to give verbal commands.
- All officers demonstrated these techniques.
- Officers demonstrated/practiced unholstering their handgun while treading, presenting their firearm and giving commands.
- Discussed topic of use of force and how entering the water with a suspect impacts the use of force continuum. If an officer is taken into the water by a suspect, the risk of serious harm or death of the officer increases immediately due to the concern for drowning. Consequently, this becomes a situation in which lethal force may be appropriate. Officers should be prepared to present their handgun and give verbal commands when possible.

Water Rescues

- Discussed the typical chaotic and desperate response of someone who is struggling in the water.
- Discussed/demonstrated ways to approach and help someone who is struggling in the water without endangering one's self.

Team Building/Physical Fitness Competition

- The class was split into smaller teams separated by lanes.
- Teams participated in a relay race in the water while in full uniform.

DTU Training Narrative

Training Details:

Training Topic: Firearms Training

Location: Delaware PD Range

Times: 1200 – 1600

Instructor(s): Ofc. [REDACTED] [REDACTED]

Summary:

Confirm zero

Warm ups. 1 mag

Speed drill 3 targets 1,2,3 then 4,5 with rifle/ repeat pistol (X2)

Possible final with pistol on steel

Drill w/ paper plates

1 right handed rifle

1 bumped over to opposite shoulder rifle

1 left handed rifle

1 pistol

Reload rifle

Shield work from being stacked on line 4-5 deep (like an approach)

Word of threat, engage paper

DTU Training Narrative

Shield work from BearCat

Exit cat in correct order, approach doorway, threat called out to engage

Repeat to work every position

Training Details:

Training Topic: Less Lethal / Impact Munitions, Distraction Devices, and Delivery Options

Location: Delaware County S.O. south sub (149 E. Orange Rd Lewis Center, Oh 43035) – DCSO range (888 US 42 N Delaware, Oh 43015)

Times: 0800 - 1600

Instructor(s): Franks, [REDACTED], Parsons, and Stayer

Summary:

DTU members met at DCSO south sub for the classroom portion of today's training. The classroom portion consisted of 5 power point presentations: 1 for Chemical Munitions, 1 for Flash Bangs, 1 for Impact Munitions, 1 for Delivery Options, and 1 CI Bang Poles.

The power point presentations consisted of the following 'Course Training Objectives'.

1. Psychological and Physiological effects.
2. Munition models and types (classification, color code, and odor)
3. Deployment options (hand, single-shot & multi-shot launchers, and CI Bang Pole).

DTU Training Narrative

4. Safety concerns and general use.

Once all the power point presentations were completed. Team members present took and successfully completed a 25 question proficiency test.

The afternoon portion of training (which took place at the DCSO range) consisted of a practical exercise with the CI Bang Pole and a 40MM Less Lethal Proficiency Course of Fire. The team was broken up into elements of 5-7 members and there was 3 training stations for those elements to complete.

Station 1.

Untimed event

Weapon system: Penn Arms 40MM Multi-Launcher

Munition: Foam Baton (training round)

Target: DOJO target

Distance: 25 feet

The Operator will move with a lethal cover team to a preferred distance. The Operator will give the appropriate verbal commands and fire one foam baton into the preferred target area. The Operator will reassess after each round is fired.

Untimed event

Weapon system: Penn Arms 40MM Multi-Launcher

Munition: Foam Baton (training round)

Target: DOJO target

Distance: 50 feet

The operator will start from a point of cover. The threat (DOJO target) will present itself. The Operator will give the appropriate verbal commands. The non-compliant target will fail to

DTU Training Narrative

comply with commands. The Operator will fire one foam round into the preferred target area of the DOJO target. The Operator will reassess after each round is fired.

Untimed event

Weapon system: Penn Arms 40MM single or Multi-Launcher

Munition: Wood baton

Target: DOJO target

Distance: Not Specified

The Operator will demonstrate proper deployment of Wood Batons into the DOJO target. The Operator shall demonstrate the skip-fire technique using the proper point of aim (6-8' in front of the target). The Operator will reassess after each round is fired.

Station 2.

The practical exercise with the CI bang Pole consisted of team members prepping the Bang Pole for operations. Team members prepped the Bang Pole (with training rounds / equipment) and while doing so explained each step in the process. Team members also 'broke down' the Bang Pole as if it was actually deployed or there was a 'No Bang' situation.

Station 3.

Untimed event

Weapon system: Penn Arms 40MM Multi-Launcher

Munition: Foam Baton (training round- to simulate CS Liquid/Powder Barricade round)

Target: 2nd story window

DTU Training Narrative

Distance: Not specified

The operator will move towards the structure with lethal cover team and assume a position to deliver chemical munitions into the structure. The Operator will announce the delivery of chemical munitions and fire 2 rounds into the window at the appropriate angle. The Operator will reassess after each round is fired.

Untimed event

Weapon system: Penn Arms 40MM Single Shot launcher

Munition: Foam Baton (training round)

Target: 2nd story window

Distance: Not specified

The operator will move toward the structure with a lethal cover team and assume a position to deliver chemical munitions into the structure. The Operator will announce the delivery of chemical munitions and fire 1 round into the window at the appropriate angle. The partner reload technique will be utilized and the Operator will fire a 2nd round into the window. The Operator will reassess after each round is fired.

All the above training could be utilized anytime DTU would be requested to complete a mission or task. All team members present completed today's training successfully and without incident.

Training Details:

Training Topic: Immediate Action Plans

Location: Vacant American Freight Building, 680 Sunbury Rd. Delaware.

Times: 0800 – 1200

Instructor(s): Ofc. Cook

Summary:

On March 16, 2022 between 0800 and 1200 DTU met at 680 Sunbury Rd. where we had access to a building that was previously used as a warehouse. We had not yet trained at this location so to start the day the whole team was given a scenario searching for suspects out of a robbery that occurred next door at Sheetz gas station.

I briefed the team leaders on the scenario and they entered from two locations. This was a chance to work on search techniques in an area they had not seen yet. This led to good discussions on how to move through different areas. I used the team medics and Officer Phenix from Powell PD who came as role players. I placed them in different locations and we continued similar scenarios for the next hour or so. Some of the team was pulled away to help DTF on a search warrant. We then broke down into smaller teams and began working

DTU Training Narrative

immediate actions drills. This was the assigned topic for the day but due to not having a location to train until the last minute it was hard to plan for that so we incorporated high threat CQB tactics into training as well.

We set up a hostage rescue scenario and had the team leaders plan an immediate action team that would make entry if a green light was given or if they had stimulus to respond to. We ran through this several times and gave team leaders a change to change out the teams so everybody had a chance on the immediate action team. We then set up a couple of scenarios where a suspect fled the building upon DTU arrival. This was a request I received due to a mission where this happened and the team was not ready for the suspect to appear so quickly. We talked through the scenarios each time and discussed our approaches in the event this happens again.

Training Topic: Downed Officer Rescue with Armored Vehicles

Location: Vacant American Freight Building, 680 Sunbury Rd. Delaware.

Times: 1200 – 1600

Instructor(s): Ofc. Gavaghan, Ofc. Bates, Medic Jividen

Summary:

0800hrs. - 0900hrs:

DTU members received training in downed officer rescue tactics.

Instructors reviewed the various carry positions to include single officer carry, two officer carry and four officer carry techniques. DTU Members practiced each carry position and new members received additional training to bring them up to speed. The team was then split up into two groups and trained various officer down scenarios. Various formations were run depending on the scenario and the position of team leader was rotated to allow multiple team members to become familiar with leading the formation and rescue / recovery operations.

0900hrs - 1045hrs:

Armored vehicles were incorporated into the training. A review of the Bearcat and MaxxPro loading techniques was completed. Afterwards, a DTU Medic was positioned in each vehicle and DTU Members completed various recovery drills which ended after the injured party was successfully loaded into the armored vehicle.

DTU Training Narrative

This block of training covered the use of backboards and various types of soft litters to assist in loading injured parties into the vehicles. Medics and Operators were able to identify the strengths and weaknesses of each and determine best practices. Operators also learned how to quickly remove our current body armor prior to lifting / loading.

1045hrs - 1130hrs:

DTU members completed various downed officer rescue drills utilizing all of the previous training. A team leader was selected, given a scenario and assigned roles for the op. A 165lb mannequin dressed in typical entry gear was utilized as the downed officer and the Bearcat was used for armor / transport. In each scenario the team developed a recovery plan, executed it in a safe manner, successfully loaded the injured party into the armored vehicle and secured a strong hold on their current position while the injured party was transported for emergency care.

Training Details:

Training Topic: Armored Vehicle Operations

Location: JVS North

Times: 0800 – 1200

Instructor(s): Dep. Shane VanDyke

Summary:

This course was to familiarize DTU team members with certain equipment on the Bearcat. The Bearcat is equipped for 4 wheel drive and a removal winch system. I broke the team down into 5-6 personal groups to go over the equipment on Bearcat.

The Bearcat 4x4 system uses manual locking hubs and a manual shift lever. I showed the group on how to lock/unlock the hubs. I also explained the reason to them for making sure the hubs are locked in the correct position. Without the hubs locked in the front wheels will not be connected to the axel shafts and 4wheeler drive will not work.

The second part was going the winching operations. The winch uses a receiver system, like on the back of a truck. You slide the winch into the receiver. The battery cables use a quick

DTU Training Narrative

disconnect system. Plug the cables into the over plug which is on the bearcat bumper. I then went over plugging the winch controller and putting the winch into free spool mode for quick cable pulls. Then using the controller wheel the cable back into the winch. I then disconnected the winch and had each member put the winch into operation.

The main goal of the winch is for recovery vehicle operations. Either for the bearcat (i.e. suck in muddy conditions) or other disabled vehicles that need to be moved.

Lastly Valentine did a brief review of the MaxPro. He refreshed using the door and operation the rear hatch, which use an air type system to open and close them. He also had team members drive the MaxPro to understand the large vehicle handling characteristics.

Training Topic: Firearms Training

Location: Delaware PD Range

Times: 1200 – 1600

Instructor(s): Lt. Aaron Dickison

Summary:

Long-range and perimeter shooting.

Drill #1

Rifle

15 rounds

50 yards

On command, the shooter fires 5 rounds standing, 5 rounds kneeling, and 5 rounds prone at steel. This drill is run 4 times.

DTU Training Narrative

Drill #2

Rifle

5 rounds

50 yards

On command, the shooter fires 5 rounds at steel while being on a timer. 2.5 seconds is the par time. This drill was run 3 times.

Drill #3

Pistol

6 rounds

25 yards

On command, the shooter will fire 6 rounds at steel. This drill was run 4 times

Drill #4

Pistol

15 rounds

25 yards

On command, the shooter fires 5 rounds standing, 5 rounds kneeling, and 5 rounds prone at steel. This drill is run 2 times.

DTU Training Narrative

Drill #5

Pistol

60 rounds

Multiple distances

The DTU pistol course was shot for practice.

Training Details:

Training Topic: Land Navigation

Location: Blues Creek Park

Times: 0800 – 1200

Instructor(s): Ofc. Robin Valentine

Summary:

On 4/20/22 DTU conducted a familiarization with the Garmin 601 wrist mounted GPS navigator:

Introduced team to basic functions of 601

Explained and demonstrated how to setup each officers Garmin 601 to show proper coordinates

Had each officer conduct a calibration of their individual 601

Had each officer practice entering coordinates using lat/long

Showed officers how to navigate after entering lat/long coordinates

DTU Training Narrative

Daytime hands-on training with Garmin 601 (Conducted at Blues Creek Park)

Ofc. Robin Valentine provided lat/long coordinates for 4-5 man teams to conduct practical land navigation exercise using the Garmin 601. They were then given the order in which they were to follow moving point to point. Each team member had to input the correct latitude and longitude to successfully arrive at the correct numbered point.

Training Details:

Training Topic: Land Navigation w/ Drone Teams

Location: Blues Creek Park

Times: 1200 - 0000

Instructor(s): Ofc. Robin Valentine

Summary:

DTU/Delaware PD Drone Team coordinated daytime training (Conducted at Blues Creek)

Conducted two scenario based trainings in which Delaware PD Drone Team assisted walking in DTU elements to suspect(s):

Scenario 1: One blue gun armed suspect was holding a subject (park employee) against their will within the confines of Blues Creek Park. Delaware PD Drone Team was tasked with locating and fixing suspect if possible. DTU members were given last known direction of travel to initiate movement to general location of suspect and hostage. Once located by drone team, drone team would provide updated lat/long for suspect/hostage location which DTU members entered into their Garmin 601. Drone team was to provide situational updates of suspect demeanor and actions while team closed in to affect an arrest and hostage rescue.

Scenario 2: Team tasked with locating one lone suspect armed with blue gun. Suspect given instructions to move once drone team made initial approach and ID. DTU element started movement to last known direction of travel and provided location/situation updates by drone team in real time. Drone team used to walk DTU into proximity of suspect so that DTU could affect an arrest of armed suspect.

DTU Training Narrative

DTU/Delaware PD Drone Team coordinated nighttime training (Conducted at Blues Creek)

Scenario 3: Nighttime mission with two armed suspects that had “fired” at a nearby resident to the south of Blues Creek Park. Suspects then moved north into park property as described by shooting victim that was not struck by suspect fire. DTU elements started their initial movement into the area believed to be the direction suspects took into the park. Drone team located suspects that had separated by approximately 50 yards. Drone team was able to provide updated lat/long for both suspects. DTU able to move in utilizing night vision devices and updated location/situational information provided by Drone team. Drone team assisted with the sequential arrest of both subjects by utilizing the drone’s FLIR. Attempted to use the white light function on the drone without success but DTU still able to affect successful arrests on both suspects.

There were no reported injuries during the training event and all equipment was accounted for.

Training Topic: Physical Fitness Test

Location: Delaware PD

Times: 0800 – 1200

Instructor(s): Ofc. Gavaghan

Summary:

DTU Members completed the annual PT test. Results are attached.

DTU Training Narrative

Training Topic: Firearms Training

Location: Delaware PD Range

Times: 1200 – 1600

Instructor(s): Dep. Mark Kern

Summary:

Pistol Drills/Rifle Drills

Drill #1

Target – RQT2

Grading – Silhouette

Rounds – 1 round

Time – Under 1 second

Distance – 10 feet

Carry - Holster

Objective – Draw weapon, shoot faster while still being accurate under time.

Drill #2 (Pistol or Rifle)

Target – RQT2

Grading – 2 in the Silhouette and 1 to the head

Rounds – 2 round

Time – Under 2 second

Distance – 10 feet

Carry - Holster

Objective – Draw weapon, shoot faster while still being accurate under time.

DTU Training Narrative

Drill #3 (Scrambler Drill)(Pistol or Rifle)

Target – RQT2

Rounds – 14

Time – TBD

Distance – 20 feet and 40 feet

Carry – Low ready

Objective – Shooting on the move, focus on their body mechanics and target acquisition.

- Deputy Siegel and Deputy ██████ both qualified with their rifles.

Training Details:

Training Topic: Joint Training with the Crisis Negotiation Team

Location: Vacant American Freight Building, 680 Sunbury Rd, Delaware

Times: 0800 – 1400

Instructor(s): Dep Chris Stayer & Sgt. Adam Willauer (CNT)

Summary:

- I. Discussion regarding use of harnesses for CNT members
 - a. Why use?
 - i. Stop CNT members from getting too close to subjects
 - ii. Prevent CNT members from being pulled over edge
 - b. How actually use?
 - i. How set up?
 - ii. Where tie off?

DTU Training Narrative

- c. When would be used?
 - i. Face to face situations with unarmed people
 - ii. Likely jumpers
- d. How would DTU operate in these scenarios?
- II. Set up a mock scenario using edge of pavement at the range

"Highlands Ranch Colorado"

- I. Initial information
 - a. At about 0700 hrs. this morning Thomas Bell, an employee at US Freight called 911 to report that Matthew Riehl, the company owner, was acting very unusual and was in a loud verbal altercation with a customer over what Bell thought was a trivial matter.
 - b. Officers responded to the scene and were able to deescalate the situation and while they were told Riehl's behavior was uncharacteristic for him their concerns did not rise above that level.
 - c. At about two hours later Amy Smith, another employee of US Freight, called 911 to report that Riehl was now arguing with several employees, and she was afraid it would escalate into a physical fight because Riehl was "not acting right."
 - d. Officers Pelle, Doyle, Castle, and Crafton responded to the scene. They determined that Riehl needed to be pink slipped after speaking with the employees and briefly with Riehl himself.
 - e. When they went to take Riehl into custody he fled into an office in the building closing the door after himself and refusing to come out. As the officers were outside the door trying to tell Riehl to come outside he quickly began shooting a rifle through the door at the officers.
 - f. Ofc. Pelle and Doyle quickly fallback from Riehl's office. Ofc. Castle was shot and is now not answering his radio. As Ofc. Crafton tried to escape the bullets he

DTU Training Narrative

inadvertently dropped his gun outside Riehl's office and Ofc. Crafton is now inside another interior office.

- g. Employees also quickly began evacuating the business
- h. Riehl has continued to occasionally fire what seem to be random shoots. DTU/CNT were activated.

II. Matthew Riehl

a. Info

- i. 37 y/o male
- ii. Prior army service
- iii. Divorced with 2 teenage children who live out of state

b. No CCH

c. No prior calls with Riehl as suspect at his business

d. Social media

- i. Recent YouTube videos with Riehl ranting about the "decline of America" and conspiratorial claims of who is at fault for it. Also unhappy about a recent traffic stop for speeding by OSP.

III. Information from other employees

a. Riehl has owned the business for several years and generally considered a good person to work for

b. Over the last year or so lots of issues in his life

- i. Covid downtown in the business caused stress on him
- ii. Separated from wife who then divorced him

- 1. Wife recently moved out of state with their two teenage children

iii. Riehl began missing work

iv. Within the last week Riehl has been seemed really "on edge"

DTU Training Narrative

IV. Actual event

- a. https://en.wikipedia.org/wiki/Copper_Canyon_Apartment_Homes_shooting

Training Topic: Small Unit Response to an Active Shooter

Location: Vacant American Freight Building, 680 Sunbury Rd, Delaware

Times: 1400 – 1600

Instructor(s): Sgt. Jake Stoll

Summary:

DTU Members were divided up into small teams of 5-6 operators and were staged in a vehicle outside of the building. They were told that there was gunfire coming from inside and they responded inside. Once inside, they were forced to locate where the gunfire was coming from, work together as a team, and simulate neutralizing the threat.

The training was designed to simulate working a protection detail at an event where operators are pre-staged at a location. They were taught to move direct-to-threat, utilizing speed of movement to minimize the further loss of life.

Training Details:

Training Topic: Firearms Training

Location: Delaware PD Range

Times: 0800 – 1200

Instructor(s): Sgt. Stoll

Summary:

The focus of the training was weapon reloads and weapon transitions. It was discussed when it is appropriate to do each, based on distance and availability of cover. Weapons were purposefully loaded with a reduced number of rounds, therefore forcing reloads and/or transitions during the courses of fire.

DTU Firearms Training

1. Work rifle reloads and transitions to pistol
2. Rifle / Pistol Load Out 7-8-9

DTU Training Narrative

a. Stage 1

- i. 10 ft
- ii. 3 rounds as fast as can
- iii. Repeat
- iv. 6/6

b. Stage 2

- i. 10 ft
- ii. 2 rounds to body, 1 round to head
- iii. Repeat
- iv. 6/12

c. Stage 3

- i. 20 ft
- ii. 3 targets
- iii. 2 rounds each target center mass, 1 round each target in the head
- iv. Repeat
- v. 9/21

d. Stage 4

- i. 75 Feet
- ii. 1 round to center mass on each call of threat
- iii. 3/24

e. Reload mags

3. Work cover with rifle/pistol

a. Stage 1

DTU Training Narrative

- i. Barricades moved back to edge of pavement
- ii. Proper use of cover / correct knees
- iii. Kneel so u only see the outside target and fire 3 rds
- iv. Lean out further so u can see the inside target and fire 3 rds
- v. Do the same thing on the other side
- vi. Repeat

b. Stage 2

- i. 4 barricades / 3 barrels. ___ o ___ 0 ___ o ___
- ii. 1 round standing from each wide of barricade, move to barrel, 1 round over the top of the barrel kneeling.
- iii. Work it L-R and then R-L.

Training Details:

Training Topic: Working in, from, and around vehicles

Location: Delaware PD Range

Times: 1200 - 1600

Instructor(s): Ofc. Woodard & Ofc. Simon

Summary:

Ofc. Woodard was able to obtain two junk vehicles from a local towing company. Team members practiced shooting from the inside of the vehicle on targets outside of the vehicle, simulating being ambushed while inside a car. It was stressed that the goal was to get out of the vehicle and be in a better position to fight. Members were then given the opportunity to shoot from various positions around the vehicles, using them as cover. The instructors discussed the difference between concealment and cover and pointed out where the best positions of cover are on cars.

DTU Training Narrative

The next topic covered was vehicle extractions. Team members worked repetitions on moving up to a vehicle with people barricaded inside and extracting them from the car.

Finally, we tested some of our equipment on the vehicles. We wanted to see what our options are for breaking out front, rear, and side windows. Additionally, we worked with the “bang pole” to practice safely deploying flash bangs in and around vehicles. We used 40mm impact rounds to evaluate their effectiveness and the best angles to deploy them.

Training Details:

Training Topic: Joint Training with Drone Teams

Location: Grizzell Middle School (8705 Avery Rd, Dublin, OH 43017)

Times: 0800 – 1600

Instructor(s): Sgt. Stoll (DTU), Sgt. Sloan (DCSO), Ofc. Childs (Delaware PD)

Summary:

DTU conducted joint training with drone teams from DCSO, Delaware PD, and Dublin PD. The main focus of the training was working with the drone teams inside of buildings. There were a couple of scenarios that were conducted outside, but the majority of the day was spent indoors.

DTU Training Narrative

DTU Training With Drone Teams

- Warm up
 - Split the team into two and each group work to slowly search a section of the building using the drone initially, then followed up with team members searching.
 - Nobody inside, just getting a feel for how to work with the drone team indoors.
 - Possibly switch areas and/or drone teams.
- Scenario 1
 - Two armed robbery suspects fled on foot after a vehicle pursuit. They were last seen entering the building. Security footage shows them enter one of the rooms in this hallway, but cannot tell which one from the camera angle.
 - Interior team should hold the hallway and begin searching with the drone.
 - Interior team requests an exterior team to search thru the windows from the outside.
 - Goal is to figure out how to communicate with each other.
 - Hopefully we can find an area in the building to make this work, where the exterior team sees the suspects from the outside and directs the interior team to them.
 - Need 2 role players.
- Scenario 2
 - Patrol responds to a shooting in the office building. Suspect is an employee and shot his boss. He begins streaming on facebook live trying to get his family to watch him die in a shootout with the police. DTU responds and begins clearing the building in an attempt to locate him inside. Most of the employees have sheltered in place and are still in the building hiding.
 - Work with the drone team to locate the suspect inside.

DTU Training Narrative

- Once the suspect sees the drone, the suspect comes out into the hallway and shoots at the officers. Hopefully this is far enough away that long cover picks him up and sees him duck back into a room.
 - Suspect is in the room with gun pointed at officers as they see him.
 - One role player and the mannequin.
- Scenario 3
- BOLO for a murder suspect out of Michigan. Tip comes in that the vehicle is parked behind the middle school. It's Saturday and nobody is in the building. Drone team flies overhead and locates the vehicle. As they zoom in closer, it appears the suspect is asleep in the back seat.
 - Drone directs team into location and BearCat pins the car in.
 - Suspect is initially compliant, then starts to get back into the car.
 - Goal is to try LL to prevent him from getting back in the vehicle.
 - He reaches in the back seat and pulls out a rifle.
 - 1 role player.

Training Details:

Training Topic: Tubular Assault

Location: 6000 Perimeter Dr. Dublin Ohio 43017

Times: 0800 – 1200

Instructor(s): Ofc. Gavaghan

Summary:

The focus of the training was preparing and training for tubular assaults. This includes barricaded subjects or hostage situations taking place on a bus, train, plane or any other similar vehicle or environment.

DTU Tubular Assault Training

1. Vehicle familiarization – COTA Bus (Natural Gas, Diesel, Electric operation)
2. Explanation and demonstration of operation

DTU Training Narrative

3. Entry / Exit Points and Vulnerabilities
4. Manual shut off capabilities (SWAT Switch, external controls, battery access)

Training Details:

1. Barricaded subject

- a. Immobilize the bus utilizing armored vehicles to pin the front and rear
- b. Contain the incident to the bus by having teams at the front and rear positions
- c. Determine if the assault or arrest team will operate from the front or the rear
- d. Begin / continue negotiations to reach a peaceful resolution
- e. Ensure all necessary equipment is prepped and ready should assault be necessary
- f. Entry made only as a last resort and necessary to preserve life

2. Hostage Rescue

- a. Immobilize the bus utilizing armored vehicles to pin the front and rear
- b. Contain the incident to the bus by having teams ready at the front and rear
- c. Determine which team will conduct the assault
- d. Have ready / deploy all appropriate distractionary devices (less lethal, flash bangs, bang poles, smoke etc)
- e. Conduct the assault to eliminate the threat and save lives

3. Training Drills

- a. DTU operators engaged in multiple training scenarios resulting in an assault on the bus.

Summary:

We were able to secure a COTA Bus for training. A COTA representative and a mechanic delivered the bus to the training location. They provided DTU Operators an overview of the vehicle and explained its operation. They then went over the external controls, vulnerabilities and pointed out the various ways to mechanically disable the bus from outside (SWAT Switch, battery access, manual shut offs).

DTU operators then utilized armored vehicles to “pin” the bus and conducted multiple assaults utilizing this information. These assaults were conducted in multiple ways to determine what

DTU Training Narrative

techniques worked well and which did not. We also learned what equipment assisted in the assault and what equipment hindered our efforts. Topics discussed included deploying scout / snipers, backdrop considerations and equipment needs.

Training Details:

Training Topic: Fitness Training & Team Building

Location: Glacier Ridge Metro Park

Times: 1200 - 1600

Instructor(s): Sgt. Stoll & Ofc. Woodard

Summary:

DTU Members met at Glacier Ridge Metro Park to participate in team oriented physical fitness. We utilized the jogging path and obstacle course at the park. Team members then took part in a series of physically demanding team competitions. No injuries were reported.

Training Details:

Training Topic: High Threat CQB

Location: 6000 Perimeter Dr., Dublin, Ohio

Times: 0800 – 1600

Instructor(s): Sgt. Combs and Off. Cook

Summary:

The focus of the training was weapons handling and building clearing techniques. Included in this were tactics involving officer/ suspect encounters ranging from complaint, non-compliant, combative, melee weapons, and projectile weapons inside of a structure. We also reviewed the clear, cover, and support tactics of high threat CQB before ending the day with hostage rescue speed of high threat CQB.

Weapons Flow

1. Review readies and carries with a rifle

DTU Training Narrative

2. Review readies and carries with a pistol
3. Friendly fire mitigation
 - a. On-line
 - b. Body-block
 - c. Vectoring
 - d. Applying those with a contact to the rear drill
 - i. Weapon has priority of movement, look, turn, move
4. Closed doors
 - a. Knob side and knob opposite side
 - i. It was reinforced not to be in front of the door whenever possible and to use the door to cover your movement. The risks of getting separated and trapped or having crossfire were discussed in relation to rolling closed doors. In that case, it was taught that the preferred method whenever possible would be to breach around the point officer. This also keeps all threats in view.
5. Force on paper
 - a. Using clear eye protection and UTM/ Simunition weapons- officers used the clear, cover and support technique of high threat CQB to clear two different locations in the building. Once they worked it in one direction, they worked it back the other way with targets being moved in between to get four fresh scenarios. Not overpopulating hallways, not triggering the room by pushing muzzles out past the threshold, and using the formation were stressed throughout.
6. Battle drills
 - a. Officers practiced on one door in isolation, working with complaint, non-compliant, combative, melee weapon, and projectile weapon suspects. It was stressed to have a procedure on how to handle each that everyone was familiar with starting with, "Police, do not move." (Legal authority, lawful command)
 - b. Once that verbiage was used to establish compliance, we enforced doing a visual frisk of the suspect and immediate surroundings. From there getting them in a position of disadvantage and clearing the rest of the room, leaving them in and going and getting them or bringing them out and back the direction they just came when compliant.

DTU Training Narrative

- c. We talked about the importance of having less lethal nearby to be there sooner not get there faster. How to body block in the doorway and deploy less lethal safely after communicating to their partner what they were about to deploy and working all suspects from a position of dominance at the doorframe.
7. Force on paper with live role players
 - a. Role players were given UTM/ Simunitions PPE and placed in rooms with instructions to be compliant, non-compliant, combative, or melee weapon. This forces the officers to make critical decisions while utilizing their tactics in a realist environment in real time. There were also shoot targets throughout that would need to be identified and engaged. Each officer got four scenarios similar to the force on paper scenarios performed earlier.
 8. Hostage Rescue
 - a. Each officer got a scenario for a hostage rescue scenario with two live role players in PPE (hostage taker and hostage)
 - i. It was reinforced that they go direct to the hostage situation/ stimulus without stopping to clear rooms/ areas but to eyewash on the move as they went.
 - ii. Once they located the exact location in the structure, it was taught to split the door, clearing on the move, with one officer on the opposite 90 degree and the second officer filling in on the immediate side of the door at the 90 degree. This gets two guns in the fight fastest, in a stable shooting position to neutralize the threat in the most efficient and quickest manner.
 - iii. The scenario was that negotiations had broken down with the hostage taker and a shot was heard coming from the room that they were in. Officers went direct to threat and either engaged from the doorframe if a shot was possible or bound and snapped into the room while vectoring to earn a clean shot if need be.

Dublin, OH 43017

Chief Heinz von Eckartsberg:

The Westerville Division of Police would like to thank you and the members of your department for the support and assistance to our division and our community after the deaths of Officers Morelli and Joering. We would like to show our appreciation by presenting them with a Mutual Aid Award.

The formal presentation of this award will be made during a ceremony on Monday, February 18th at 2 PM in the auditorium at the Westerville North High School at 950 County Line Rd., Westerville, OH 43081. Each department will have their own section of assigned seats for recipients. When your department is called, we ask that you and all personnel receiving the award come to the stage and to receive the award and pose for a photograph.

We would like you to extend the invitation to your city officials if desired; however, due to a limited number of seating, we ask that you please limit the number you invite to two people. Please include their names and titles of the city officials attending with you in your RSVP by Friday, January 18th, 2019.

The members of the Awards Committee hope they will attend to receive this honor.

Congratulations!

Sincerely,

Chief Joseph Morbitzer

Subject: CPD Awards for DPD Officers

All Department Personnel,

Congratulations are in order for **Officers [REDACTED], Gwen Whittaker and Todd Evans**. All three officers were included today in the **2018 Columbus Police Awards Ceremony** held at the CPD Police Academy. All three officers were honored for their part in the pursuit and apprehension of the "Buckeye" bandit last year after he robbed a bank in the Tuttle Crossing area. Our officers were awarded with CPD's "**Special Commendation**" award.

Congratulations to Officers [REDACTED], Whittaker and Evans!

Attachments: WhitTEvans [REDACTED] Award.pdf

All Department Members,

Please join me in congratulating Officers **Gwen Whittaker, Todd Evans** and [REDACTED] on being selected by the Columbus Division of Police Awards Committee to receive the Division's **Special Commendation Award**. The Awards Committee selected these officers in recognition for their actions in assisting with the identification and apprehension of a robbery suspect on October 21, 2016.

On that day, Officers Whittaker, Evans and [REDACTED] responded with Columbus Police units to the area of Tuttle and I. 270 on a report that the suspect, who had just robbed a nearby bank, was in that area. Columbus was receiving GPS information from a tracker that had been placed with the money stolen by the suspect. With the help of our officers, the suspect was quickly located and fled from officers. He was apprehended a short time later when he pointed a weapon at a Columbus officer and was shot. The suspect subsequently survived his injuries and was convicted.

The officers will be recognized at the Columbus Police Awards Ceremony on **Friday, May 18 at 1330 hrs** at the Columbus Police Academy.

Congratulations to Officers Whittaker, Evans and [REDACTED] on being recognized with this award.

Netzel, came with a different tool and was able to unlock the door.

My husband offered them money but was refused by both. We just wanted you to know how grateful we are to know there are still young men are of their caliber around. We are senior citizens and what a comfort they were to us. Please give them both our best.

Sincerely,

June 14, 2005

Chief of Police
Dublin, OH 43017

Dear Sir:

I am writing in regard to 2 of your officers, [REDACTED] # [REDACTED], and Chad Patrick.

On Friday, May 27, 2005, we arrived at the Hampton Inn, Dublin, and I locked the keys in our car prior to our checking in. The young lady at the Inn called the police to see if they could help. Immediately, Chad Patrick came with the bar but was unable to get the door open. Shortly thereafter, another officer, [REDACTED]
