

alcohol, the sale of such substance under the provisions of these sections when labeled "Wood Alcohol" would not be violative thereof.

In specific answer to your inquiry, it is my opinion that synthetic methyl alcohol which has the same chemical properties, the same poisonous effect, substantially the same odor as methyl alcohol and which is not colorless, may be sold under the provisions of Section 12708-1,-2,3 and -4 of the General Code, when labeled "Wood Alcohol" as therein provided.
