4. One cardboard box containing firearm (serial #BXCS766) with magazine and cartridges recovered from the scene (Matrix 007, CSU 008)
  - *Test Fire Exhibit Number(s): BCI 4T1-4T2*
5. Envelope containing cartridge case recovered from the scene (Matrix 008, CSU 010)
  - *Cartridge Case Exhibit Number(s): BCI 5N1*

A triage of the submitted firearms evidence was performed. This process includes assessing cartridge case(s) and test fires to determine the best representative sample from those having similar firearm produced markings for NIBIN entry. This is not, nor should it be, interpreted as a comparative examination to the fired cartridge case(s) or as to determine how many firearms may have been responsible for firing the cartridge case(s).

A cartridge case, Exhibit Number: BCI 4T1, was entered and searched in the NIBIN database.

A correlation review was performed by the ATF NIBIN National Correlation and Training Center (NNCTC). No NIBIN lead was generated. The results are referenced in the attached report. If investigative information becomes available, your agency will be notified.

All evidence will be returned to the submitting agency upon completion of the full analysis.
