F.I.T. 22-17

On Sunday, November 6, 2022, while assigned to the Cleveland Police Department, Homicide Unit, car 8189, on duty I had the occasion to further investigate this incident.

I received the Firearm and Tool Mark Laboratory Report from Forensic Scientist Thomas Morgan. Morgan compared the items that were collected as evidence with the bullets recovered from autopsy and test fired casings. He found the following results:

Item 9.1 and 9.2 (casings submitted from scene) were compared to test cartridge casings and they were identified as being discharged from the same firearm.

Item 14 and 15 (bullets from autopsy) were compared to test fired bullets and results were INCONCLUSIVE as being discharged from the same firearm.

A copy of the entire Firearm and Tool Mark Laboratory Report will be attached

THIS CASE TO BE FURTHER INVESTIGATED

Richard Tusing #3370
