Bureau of Criminal Investigation
Investigative Report

2025-2991

Officer Involved Critical Incident – 513 South Isabella St.,
Springfield, OH 45506 (L)

Investigative Activity: Records Received, Review of Records

Involves: [REDACTED] (S)

Date of Activity: 09/18/2025

Author: SA Lauren Frazier, #129

Narrative:

On September 22, 2025, Ohio Bureau of Criminal Investigation (BCI) Special Agent Lauren Frazier received training records for Springfield Police [REDACTED] from Springfield Police Lt. Beau Collins. SA Frazier reviewed the training records and noted the following:

Taser Qualification Records:

- One (1) pdf document containing the following:
 - Taser Course Roster from 8/20/2024 with [REDACTED] signature that he was present for the training
 - Taser Instructor and Operator: Warnings, Risks & Release Agreement – signed by [REDACTED] and dated 8/20/2024
 - Taser Course Roster from 8/18/2025 with [REDACTED] signature that he was present for the training
 - Taser Instructor and Operator: Warnings, Risks & Release Agreement – signed by [REDACTED] and dated 8/18/2025

Crisis Intervention Training:

- Mental Health and Recovery Board (MHRB) – Crisis Intervention Team Training – completed on August 27–31, 2012.

Other:

- One (1) pdf document received, containing six additional training certificates

Ohio Peace Officer Training Academy/Commission Records:

In addition to the records received from the Springfield Police Department, SA Lauren Frazier also obtained the Ohio Peace Officer Training Commission (OPOTC) and Ohio Peace Officer

This document is the property of the Ohio Bureau of Criminal Investigation and is confidential in nature. Neither the document nor its contents are to be disseminated outside your agency except as provided by law – a statute, an administrative rule, or any rule of procedure.

Training Academy (OPOTA) records pertaining to [REDACTED]. The POLARIS system utilized by OPOTA/OPOTC indicated the following:

- Appointment History:

Appointment History*

Agency	Employee Status	Start Date	End Date	Separation Reason
Springfield Police Department	Full-time	[REDACTED]	[REDACTED]	
Beavercreek Police Department	Full-time			
Beavercreek Police Department	Full-time			
Springfield Police Department	Full-time			
London Police Department	Full-time			
Degraff Police Department	Auxiliary			

- Basic Academy Records:
 - Clark State Community College [REDACTED]
 - Start date – [REDACTED]
 - End date – [REDACTED]
 - Exam date – [REDACTED]
 - Certificate Number – [REDACTED]
 - Certificate date – [REDACTED]
- Advanced Certifications:
 - No records found
- OPOTA Advanced Records:
 - Stops & Approaches Instructor
 - Basic Academy Driving Instructor
 - Pursuit Termination Techniques
 - Judgmental Firearms Simulator
 - Judgmental Driving Simulator
- Current Peace Officer Status:
 - Active – full-time

Based on the records received, it is noted that [REDACTED] was a duly certified and sworn Ohio Peace Officer at the time of this incident. The training documents received from the Springfield Police Department and OPOTA/OPOTC are attached to this report. Please refer to the attachments for further details.

References:

No references.

Attachments:

- Attachment # 01: 2024 & 2025 – [REDACTED] Taser Training Records
Attachment # 02: 2012-08-31 [REDACTED] Crisis Intervention Team Training Certificate
Attachment # 03: [REDACTED] Additional Training Certificates
Attachment # 04: 2025-09-18 OPOTA Officer Records – [REDACTED]

Instructor and Operator: Warnings, Risks & Release Agreement

(For Use with Any TASER Energy Weapon Training and TASER Energy Weapon Exposure)

ortissue damage. Infection could result in death or serious injury. Scarring risk may be increased when using an energy weapon in drive-stun mode. Increased skin irritation, abrasion, mark, burning, or scarring may occur with an energy weapon with multiple cartridge bays when used in drive-stun or three-point deployment modes.

WARNING: Penetration Injury. The TASER probe has a small dart point which may cause a penetration injury to a blood vessel or internal organ, including lung, bone, or nerve. The probe or dart point (which may detach or break) can puncture or become embedded into a bone, organ, or tissue, which may require immediate medical care, surgical removal, or may result in scarring, infection, or other serious injury.

SAFETY INFORMATION: ENERGY WEAPON DEPLOYMENT AND USE

WARNING: Energy weapons and cartridges are weapons, and as with any weapon, follow safe weapon-handling practices and store your energy weapon securely. Significant differences exist between different TASER energy weapon models. Before using any energy weapon, including a multi-shot energy weapon, ensure you understand the functioning and effects of that model. Follow practices in Axon's TASER warnings and training materials and any additional requirements in your agency's Guidance. Failure to follow the warnings may result in death or serious injury to the operator or others.

WARNING: Confusing Handgun with Energy Weapon. Confusing a handgun with an energy weapon could result in death or serious injury. Learn the differences in the physical feel and holstering characteristics between your energy weapon and your handgun to help avoid confusion. Always follow your agency's Guidance and training.

WARNING: Trigger Hold-Back Model Differences. If the trigger is held back, most energy weapons will continue to discharge until the trigger is released or the power source is expended. With an APPM installed, the X2 and X26P can be programmed to stop an energy weapon discharge at 5 seconds *even if the operator continues to hold back the trigger*, requiring a deliberate action to re-energize the deployed cartridge. The TASER 7 and TASER 10 offer similar options incorporated into the device (independent of the battery pack). Know your model and how it works. Avoid repeated, prolonged, or continuous energy weapon applications when practicable.

SAFETY INFORMATION: ENERGY WEAPON EFFECTIVENESS

WARNING: Subject Not Incapacitated. An ineffective energy weapon application could increase the risk of death or serious injury to the operator, the subject, or others. If an energy weapon does not operate as intended or if subject is not incapacitated, disengage, redeploy the energy weapon, or use other force options in accordance with agency Guidance. An energy weapon's effects may be limited by many factors, including absence of delivered electrical charge due to misses, clothing disconnect, intermittent connection, or wire breakage; probe locations or spread; subject's muscle mass; or movement. Some of the factors that may influence the effectiveness of energy weapon use in effecting or achieving control of a subject include:

Subject may not be fully incapacitated. Even though a subject may be affected by an energy weapon in one part of his body, the subject may maintain full muscle control of other portions of his body. Control and restrain a subject as soon as possible, and be prepared in case the subject is not fully incapacitated.

Subject may recover immediately. A subject receiving an energy weapon discharge may immediately regain physical or cognitive abilities upon cessation of the delivered energy weapon discharge. Control and restrain a subject as soon as possible, and be prepared in case the subject immediately recovers.

Drive-stun mode is for pain compliance only. The use of a handheld energy weapon in drive-stun mode is painful, but generally does not cause incapacitation. Drive-stun use may not be effective on emotionally disturbed persons or others who may not respond to pain due to a mind-body disconnect. Avoid using repeated drive-stuns on such individuals if compliance is not achieved.

SAFETY INFORMATION: GENERAL PRECAUTIONS

WARNING: Unintentional Energy Weapon Deployment or Discharge Hazard. Unintentional energy weapon activation or unexpected cartridge discharge could result in death or serious injury to the operator, subject, or others.

Avoid static electricity. Keep cartridge away from sources of static electricity. Static electricity can cause an energy weapon or X26, X26P, or M26 cartridge to discharge unexpectedly, possibly resulting in serious injury.

Keep body parts away from front of energy weapon or cartridge. Always keep your hands and body parts away from the front of the energy weapon and cartridge. If the energy weapon discharges unexpectedly you could be injured.

IF YOU HAVE A CONDITION OR PRE-EXISTING INJURY THAT COULD BE AGGRAVATED BY PARTICIPATING IN TASER TRAINING OR RECEIVING A TASER ENERGY WEAPON EXPOSURE, NOTIFY YOUR INSTRUCTOR.

Please check the appropriate boxes:

- ☐ I am currently deemed fit for duty by my agency.
- ☐ I want to receive a voluntary TASER energy weapon exposure.
 - ☐ I do NOT have any pre-existing injuries or conditions that could be aggravated by a voluntary exposure.
 - ☐ I understand the risks associated with receiving a voluntary exposure and fully assume all risks.

LIABILITY RELEASE AGREEMENT

I acknowledge and agree as follows:

I have read, fully understand and accept the risks. I have read, fully understand, and accept the risks as stated in this document and Axon's current warnings ("Risks") and that these Risks exist whether or not I have pre-existing injuries. With full knowledge of the Risks, I voluntarily agree to participating in TASER energy weapon training.

Axon does not require an energy weapon Exposure. I understand that Axon does not require a energy weapon exposure as part of Instructor or Operator training. It is up to each agency to determine whether its instructors and operators experience an energy weapon exposure as part of training and it is exclusively my decision to voluntarily experience an energy weapon exposure.

I accept the Risks. Understanding the Risks, I assume all Risks inherent in TASER energy weapon training and, if applicable, voluntary energy weapon exposures, whether known or unknown, foreseen or unforeseen.

Release and hold harmless. I release and hold harmless Axon, its agents, officers, directors, employees, and distributors, my instructor, my law enforcement agency, and the host agency (collectively "Released Parties"), from any and all claims, including but not limited to, claims for strict liability, breach of warranty, failure to warn, or any other theory of liability whatsoever even if due to the NEGLIGENCE or GROSS NEGLIGENCE of the Released Parties. I specifically waive any statutory rights I may have regarding the release of unknown claims.

I agree no one will sue Released Parties. I promise that neither I nor anyone on my behalf will ever sue or bring any other legal action or claim against the Released Parties for anything related to my TASER energy weapon training or, if applicable, voluntary exposure.

Workers' Compensation Rights. This release does not waive any rights I may have under Workers' Compensation Laws. I agree that any recovery under Workers' Compensation Laws does not change, extend or enlarge the waivers and protections inherent in this agreement.

This agreement supersedes any other representation. This release supersedes any other statement, agreement or representation, written or oral, concerning my TASER energy weapon training and/or exposure. I affirm that this is my entire agreement with Axon and I am not relying on any representation by my instructor or agency inconsistent with Axon's TASER warnings and the Risks set forth in this document or in Axon's TASER training materials.

This agreement is a binding contract. I intend this form be legally binding upon me, my heirs, executors, administrators, attorneys and assigns. This agreement is contractual and not a mere recital. If any part of this agreement is held vague, invalid, or otherwise unenforceable, the rest of the agreement will continue in full force and effect.

I am competent to be bound by this agreement. I affirm that I am competent to enter into and be bound by this agreement; that I have read and understand this Liability Release Agreement in its entirety; that I have not been induced to sign this agreement by any promise or representation; and that I sign it voluntarily and of my own free will. By signing below I understand that I am giving including the right to recover damages in case of injury.
