E. Arrangements to contact the Deputy's family shall be determined by the involved Deputy, whenever possible, advising them of the incident, and the procedures that follow. J. During the investigation and for as long as necessary, all telephone calls to the involved Deputy shall be screened by his/her Supervisor or designee. If extensive or adverse media coverage, adverse public statements, or other extra ordinary circumstances aggravate the situation, or if harassing phone calls bother the Deputy or his/her family at home, arrangements shall be made to screen calls. Involved Deputies should be kept out of reach of any anti-law enforcement or radical groups or individuals as much as possible.

K. Arrangements for counseling at Office expense shall be coordinated through the Administrative Division.

*Mercer County Sheriff Office***FIREARMS SAFETY RULES  
&  
PROCEDURES**

1. Treat all firearms as if they are loaded.
2. Never point a firearm at any person unless you are prepared to shoot that person. (Unless you are participating in a controlled supervised training program)
3. Immediately upon picking up a firearm, open the cylinder or action and check to make sure that the firearm is unloaded. If not, then unload the firearm, and check it again.
4. Never give a firearm to, or take a firearm from, anyone unless the cylinder or action is open and the firearm is unloaded.
5. **Don't** permit your firearm to be worked on by a person other than a qualified Gunsmith or Armorer.
6. **Don't** engage in horseplay with your firearm. Keep it secured while not actually engaged in range training or being using to defend your life or others as set in department policies.

**RANGE SAFETY RULES AND PROCEDURES:**

1. Keep your finger on the outside of the trigger guard and off of the trigger until you're ready to fire.
2. Upon arrival at the range make certain that all firearms are unloaded.
3. Make sure that there are no obstructions in the barrel and the firearm is in proper working order. (Firearm Instructor may inspect your weapon at any time)
4. Load only when instructed to and follow the instructor's commands on how and when to load your weapon.
5. **Don't** smoke on the firing line.
6. Keep the firearms pointed down range at all times.
7. When not actually firing the firearm, keep it in the proper state of safety, E.G., handguns holstered, long guns with actions opened, or proper carrying positions.
8. Never draw the handgun from the holster or reholster with the trigger finger inside the trigger guard.
9. Do not play with or handle your firearms behind the shooters on the line.
10. Do not talk to the shooters on the firing line.
11. Never permit the muzzle of your firearm to touch the ground.
12. If the firearm is dropped, check it before firing.
13. Never pull the hammer back to the cocked position unless you intend to fire.
14. When using a revolver never let the hammer down on the live round without first placing the thumb in front of the hammer and releasing the hammer carefully.
15. Never leave your firing point without first making sure your firearms safe as per instructions.
16. Never go in front of the firing line until the firing line has been cleared and the command has been given to go forward.

## ***Mercer County Sheriff Office***

17. Never dry fire on the range except under supervision of an instructor.
18. Pay strict attention to the range officer's commands.
19. Never anticipate a command.
20. You should always wear eye and ear protection and department issued body armor at all times unless the instructor advises otherwise.
21. Be familiar with and make sure you understand the range officer's commands before firing. If you are not clear on the instructions, ask for clarification before proceeding.
22. If a malfunction occurs with your firearm attempt to clear it. If you are not unable to correct the problem with immediate action, keep your firearm pointed down range and signal for assistance.
23. Strictest discipline must be maintained. Carelessness cannot and will not be tolerated. The instructors are the primary range safety officers. Each student is tasked with making sure that they and the other students do not violate these safety rules. Each student should immediately notify the instructor if they see a serious violation of these range safety rules.

### **HOME SAFETY RULES AND PROCEDURES:**

1. You are responsible for the safety of others with your firearms
2. Educating your immediate family about your firearms is mandatory.
3. For maximum security you must make sure firearms are inoperative and inaccessible to others.

  - B. The use of commercial trigger locks.
  - C. The use of handcuffs, padlocks, or flexcuffs.
  - D. **Don't** keep your handgun under your pillow or anywhere in easy reach to you while in bed.
5. However you deal with your firearm and ammunition, be consistent.
6. If you follow the same routine every time you are less likely to forget something important like: reloading your firearm before returning to duty.

November 12, 2020; November 20, 2020; December 11, 2020;*

I. The Purpose of policy is to direct deputies in the appropriate use of force, reporting use of force, and to provide post incident support in critical incident situations.

A. TRAINING / PROFICIENCY TESTING: [Standard: 1.1, 1.1a, 1.1b, 1.1c, 1.2, 1.2a, 1.2b, 1.2c, 1.3, 1.3a, 1.3b, 1.3c, 1.4, 1.4a, 1.4b, 1.4c]

1. All Sworn personnel will be issued copies of this use of force/use of deadly force policy and signed acknowledgement of receipt.
2. All sworn personnel will receive annual training on this use of force policy, which includes proficiency testing. Proficiency testing will commence on January 1 and be completed by January 31. Sworn personnel who are newly hired will receive a copy of this policy and tested for proficiency as part of the Field Training Program.
3. Proficiency testing compliance will be documented.
4. Changes to the policy will require a new copy to be issued, and require a new signed acknowledgement of receipt of the changes.

#### B. DEFINITIONS

1. **Physical Harm to Persons:** Physical pain, illness, or any impairment of physical or mental condition.
2. **Deadly Force:** Any force carrying a substantial risk that will proximately result in serious physical harm or the death of any person.
3. **Non-Deadly Force:** All uses of force other than those that are substantially likely to cause serious bodily harm or death.
4. **Imminent:** Impending or about to occur or circumstances are such that it is reasonable to believe it is impending or about to occur.
5. **Objectively Reasonable:** The amount of force that would be used by other reasonable and well-trained officers when faced with the circumstances with which the deputy using the force is presented.

6. **Serious Bodily Harm/Injury:** Serious bodily injury shall mean bodily injury which involves a substantial risk of death, or which involves substantial risk of serious permanent disfigurement, or protracted loss or impairment of function of any part or organ of the body.
7. **Active Resistance:** A subject actively resists when they take affirmative action to defeat an officer's ability to take them into custody.
8. **Passive Resistance:** A subject who takes no affirmative action to defeat the members' ability to make an arrest but who does not respond to verbal commands and presents a refusal to move by sitting down or acting as dead weight.
9. **Electronic Control Devices:** Electronic Immobilization Device (EID), Taser, or stun guns that disrupt central nervous system of the body.
10. **Serious Physical Harm to Persons:**
  - a. An action that would cause, promote, or increase any mental illness or condition of such gravity that would normally require hospitalization or prolonged psychiatric treatment.
  - b. Physical harm that carries a substantial risk of death.
  - c. Physical harm that involves some permanent incapacity, whether partial or total, or which involves some temporary or substantial incapacity.
  - d. Physical harm that involves acute pain of such duration resulting in substantial suffering, or which involves any degree of prolonged or chronic pain.
11. **Reasonable Belief:** Belief that a person has committed an act that if true would in law constitute an offense.

C. STATEMENT FOR USE OF FORCE AND USE OF DEADLY FORCE: [Standard: 1.1]

1. Deputies may only use the force reasonably necessary to affect lawful objectives. Preservation of human life is of the highest value. Deputies must have an objectively reasonable belief deadly force is necessary to protect life before the use of deadly force. The Sheriff's Office will provide post incident support for Deputies.
2. The use of force must be in accordance with United States and Ohio Supreme Court's decisions specifically entitled:

- a. Tennessee v. Garner
- b. Graham v. Conner

II. Use of Force: [Standard: 1.1]

A. Deputies may use "reasonable and appropriate physical force" to:

1. Maintain order in the Mercer County Detention Facility.
2. Affect an arrest or prevent an escape of an arrested person
3. Defend himself/herself or a third person from what is reasonably believed to be the use or imminent use of physical force while effecting, or attempting to effect, an arrest or while preventing, or attempting to prevent, an escape.
4. Take a person into protective custody for mental health or intoxicated conditions.

B. If active resistance has ceased and control has been gained, a deputy is no longer authorized to use force.

1. Medical assistance should be immediately rendered when needed, and reasonable to do so.
2. The person should be placed in a recovery position to assist and facilitate breathing.

C. **Force Options:** Deputies have several force options that will be dictated by the actions of the suspect. In any given situation there could be a range of options that could be used and would be reasonable. These options are not a “ladder” where deputies must follow the options step by step.

1. **Command Presence:** The visual appearance of the deputy where it is obvious to the subject, due to the deputy’s uniform or identification, the deputy has authority of law. All attempts should be made to de-escalate the situation prior to the use of any force.

2. **Verbal Commands:** Words spoken by the deputy directing the subject as to the deputy’s expectations.

3. **Soft Empty Hand Control:** Deputy’s use of hands on the subject to direct the subject’s movement, low potential of injury to the subject.

4. **Chemical Spray:** Chemical spray can be used to temporarily incapacitate the subject when the subject exhibits some level of active resistance. \*\* See Pepper Spray policy 8.07

5. **Electronic Immobilization Device (EID):** EID’s can be used to temporarily incapacitate the subject when the subject exhibits some level of active resistance. \*\* See Electronic Immobilization Device policy 8.10

6. **Hard Hand Control:** Punches, strikes, knee kicks, and elbow strikes have the possibility to create a stunned mental state or motor dysfunction.

7. **Impact Weapons:** Are prohibitive under the policies of the Mercer County Sheriff’s Office, with the exception of a flashlight. \*\* See Flashlight policy 8.09

8. **Canine:** Use of a canine to bite or hold a subject to prevent escape or to gain control of the subject who is actively aggressing toward deputy(s). An annunciated warning must be given before deploying a canine when reasonable to do so. \*\* See Canine policy 13.13.17

9. **Deadly Force:** Force that creates a substantial likelihood of causing serious bodily harm or death.

- a. Kneeling or standing on the back or neck during cuffing of an arrestee is a life-threatening technique and is considered deadly force. Deputies using this technique must be able to articulate the need to use deadly force.

- b. Choke holds shall not be used or applied, except in situations where the use of deadly force is permitted by law.

D. **Use of Deadly Force.** A Deputy is justified in using deadly force:

1. To defend himself/herself or a third person from what is reasonably believed to be the use or imminent use of deadly force.

2. The deputy has probable cause to believe the subject has committed a violent felony involving the infliction or threatened infliction of serious bodily harm or death the subject’s escape poses an imminent threat of serious bodily harm or death to the other.

E. **Firearms Restrictions:**

1. When circumstances permit and when reasonably practical, deputies will identify themselves as law enforcement officers and give verbal warning of their intent to use deadly force.

2. Warning shots are prohibited.

3. Discharge of firearms is prohibited when there is unreasonable risk to innocent third parties.
4. Discharge of firearms at an occupied vehicle is prohibited unless deadly force is justified.
