Something new out about you

excepted your BS excuse & left

found another bag said its old  
-- ~~so~~ believe you again -- other  
don't turn off location outta town  
first thing you do then ignore me  
on app up that then after  
caught ~~you~~ you calling Tyler  
messing w/ login change now you  
wanna be at your moms every  
night & location off but that's  
all ok tho NO my words matter  
too cz all the chance chance chance  
I give you from doing shit I  
said don't do from day 1 such  
as lie to me -- & out  
difference I ~~to~~ felt you  
everything you barely said shit  
do but make a list of thing  
you changed I asked & begged

Ik I'm not right and you are  
not either but what happen was  
no good but can we honestly look  
why I you said it was ok but  
night could see you cz you was at  
home with another man is why  
we even talked about it but now  
I'm wrong cz I did what I'm  
alabout by you didn't feel right  
so next day I on you play got  
back & what happen after was  
~~even~~ ylang I should have love?  
been there but why or how understand  
something

You gave someone your phone  
you never do & your on it every  
5mins with me on good days so  
no excuse & from day 1 we  
talked about ignoring my calls  
& being like every one else  
& I beg you to not do  
things I asked from day  
1 but also weekly I find
